

EYE WITNESS OF BEATTIE MURDER FOUND

Plans of Prosecution Upset By Claims Just Sprung.

PRISONER IS HOPEFUL

Confident Jury Will Divide, Giving Him New Trial.

RICHMOND, Va., Sept. 6.—All plans of the prosecution in the case of Henry Clay Beattie, Jr., on trial for the murder of his wife, may be changed as the result of a letter received tonight by Commonwealth Attorney Wendeburg from a man who claims to have been an eye witness to the killing of Louise Owen Beattie.

Wendeburg decided not to divulge the name of the eye witness, but said investigation today had proved that the man had been employed as a farm hand near the scene of the crime.

In his letter the man says he saw an automobile stop and heard a woman and man quarrelling. Then the man attacked the woman with the stock of a shot gun, he declared, and this was followed by the report of a gun.

Numerous letters have been received by the commonwealth from persons who said they had witnessed the murder, but none of them has received so serious consideration as this.

Judge Watson today received a telegram from a man in Chicago advising that Paul Beattie, a cousin of Henry, be indicted on a charge of murder.

RICHMOND, Va., Sept. 6.—While counsel for both sides in the trial of Henry Clay Beattie, Jr., on charge of wife murder, conferred with Judge William A. Watson today concerning the instructions to be given to the jury at Chesterfield Courthouse, detectives investigated the charge made by telegram from the west that Beattie, the girl in the case, was an accessory before the fact.

The prosecution applied to Judge Watson today to delay the release of the girl from custody at least until tomorrow. Judge Watson was informed that if the investigation was successful, Miss Beattie might be arrested and indicted as an accessory.

Detective L. L. Scherrer, who has been working up the case of the prosecution, tonight repudiated any such purpose as to Beattie, but said investigation as to Miss Beattie had not been completed.

"I do not attach much importance to it," said Scherrer tonight, "and it is probable that Beattie Beattie will be released tomorrow. Yet, we are working on the information received and will continue to do so regardless of her release tomorrow or the verdict in the case."

GIRL FRETFUL. Detective Scherrer made this statement immediately after leaving the county jail where he talked with Miss Beattie tonight. The latter fretted at her long detention and accused the prosecution of connivance in preventing her from testifying, because they "knew" she could get a bigger contract on the stage if she had been allowed to take the stand.

When she learned of the investigation made today she was greatly irritated as she had hoped to gain her freedom tomorrow.

In jail today, Miss Beattie, on learning that Henry Beattie had declared he hoped to eat dinner with his family on next Sunday, exclaimed: "I'd give a million dollars to see him do it."

The argument over the instructions to be given the jury occupied three hours today.

Second Time in History, English Channel Is Swum

DEATH. England, Sept. 6.—After a lapse of 36 years, Captain Matthew Webb's feat of swimming the English Channel was duplicated today by William T. Burgess, a native of Yorkshire, but now a naturalized Frenchman. It was Burgess' sixteenth attempt, he having first essayed the task in 1904.

Burgess started from South Foreland, Dover, at 11:15 o'clock Tuesday morning. He landed at La Chatelet, a little village two miles east of Cape Gris Nez, at 9:50 o'clock this morning, accomplishing the passage in 22 hours and 35 minutes. A motor boat accompanied Burgess owing to the zigzag course he was compelled to take because of the baffling tides, covered 60 miles in crossing the 20-mile channel.

Soon after the start a dense fog set in, and Burgess was unable to see the shore until the afternoon. He was then able to see the shore and was able to see the shore and was able to see the shore.

Throughout the trip Burgess was favored by a calm sea, but a strong tide was running and a severe storm was put on the swimmer to get him to the Goodwin sands. Twice he was attacked by sickness and several times was only held to his task by the strongest will power and the encouraging words of the men in the boat.

He remained on the French coast just long enough to telephone word of his success to his wife and partake of refreshments in a bathing box. Then he returned to England by motor boat to rest and sleep.

When he landed at Deal, Burgess with difficulty made his way through the cheering throngs to a hotel. Speaking of his great achievement, he said: "In the time the swim occupied I should have been able to cross the channel twice, but for the adverse currents. Against these I had a terrific fight and again came within an inch of failing. When approaching Cape Gris Nez the strong outward set of the current forced me to alter my course three times. I was held up some time, but when I rounded the corner I found slack water and then I knew I was in."

"I was severely stung several times by jelly fish, and while in mid channel, after a sick spell, I felt heartbroken. For a while I was almost delirious but my pulse began to sing and this gave me fresh courage to persevere."

It was 7 o'clock in the morning when the swimmer cited Gris Nez semaphore. He was then two miles to the west southwest, in these two miles it was a battle with the currents, but when Burgess got within the channel the cape he swam hastily ashore. He stumbled for two or three steps, then walked steadily without assistance. He looked remarkably fresh—considering his long swim.

For the trip across the channel Burgess was well equipped. He wore a pair of goggles and a rubber bathing cap. A party of eleven accompanied him in a motor boat. Soon after the start the wind freshened and the

swimmer had a nasty experience in a heavy sea. The water penetrated his goggles and first affected the right eye, though finally both eyes became inflamed. Altogether, said Burgess, he never before had suffered so much from salt water.

After four hours the wind began to drop and with this change the sea became smooth again.

The swimmer ate some chocolate, which made him sick, and he consulted with the pilot as to the advisability of continuing. Being informed that conditions were promising, he decided to go on, although feeling badly.

The end of the flood tide on which he started found the swimmer three miles south of the Sands Lightship. The ebb tide was tremendously strong, but the weather rapidly improved. Burgess' spirits revived and after several hours he was three miles south of Yarme buoy, of, roughly speaking, half way across.

By nightfall the wind had subsided altogether and there was an oily calm on the water. Burgess had recovered his strength and was swimming powerfully. He was bright and cheerful and from time to time chatted with the men in the boat.

The next flood tide sent him right back towards England and over the dreadful ridge shoal, where he noticed the chill of shallow water. He asked the soundings taken, and it was found that the depth was twenty-one fathoms. He concluded that he was nearer England than France. The swimmer Weidmann dived in and accompanied Burgess from 9 o'clock until after midnight. The night was ideal with a bright moon, but there was a haze on the water. Burgess took hot milk and chocolate at half hour intervals.

GROWS LIGHT HEADED. At 4:20 in the morning, the dawn light showed them Sangatte, three miles distant. Burgess complained of getting weak and light headed. He said he could see mirages and had a feeling of dizziness. He was told to sing to him he would soon "chuck it."

The party thereupon cheered him, singing the "Marseillaise" and other songs. He had an attack of muscular cramps in the region of the heart. This he attributed to the exertions of the over-earnest swimmer, but he continued swimming warily until nearly 5 o'clock. Then, thinking he was many miles off, he asked for twenty drops of champagne.

MONGOLIANS RISING IN SUPPORT OF THE DEPOSED LAMA

Disaffection Has Spread to Russia and Tibet Territory.

RUSSIA IS NEUTRAL

Anti-Railroad Riots Also Causing Annoyance to Government.

PEKING, Sept. 6.—The disaffection in Mongolia, where the prince and religious heads are uniting against the Chinese development and Chinese colonization schemes, now seems to embrace the Tibetan and Russian Buddhist in the support of the deposed Dalai Lama of Tibet.

Russia, appealed to by the Mongolians for protection against the Chinese, has refused to comply with the request but her attitude creates uneasiness here.

Regarding the situation in Sze Chuan province, where the people have risen against the railroad projects, especially the Sze Chuan-Hankow project, Sheng-Huan-Huai, who is the strong man in the Peking cabinet, advocates a score or more of capitulations. The cabinet, however, is ordering only the arrest of the ring leaders of the rioters and this is expected to terminate the opposition to the railroad.

FARMERS' LEAGUE ASSAILS TAFT

ST. PAUL, Sept. 6.—The Farmers' League of Minnesota today launched the culmination of agitation against reciprocity. Speeches in which President Taft was handled without gloves and in which such words as "sold out" and "betrayed" occurred, were made frequently during the day's session.

President Taft was assailed by a speaker the crowd howled with delight.

SEVERE STORM IN MIDDLE WEST

CHICAGO, Sept. 6.—A severe electrical and rain storm struck the middle West suddenly tonight, delaying telegraphic and telephone communication from Nebraska and Kansas and as far east as Lake Michigan. Quincyville was cut off from the outside world, either by telegraph or telephone. Iowa and Missouri were affected by a severe electrical disturbance and much damage to wires was reported.

MOTHER MURDERED WITH HER CHILD

Evidence of Desperate Battle in Lonely Oregon Cabin—Husband Is Suspected.

SCAPPOOSE, Oregon, Sept. 6.—The bodies of Mrs. Daisie Wehrman and her 1-year-old son were found today in the lonely cabin they had been beaten into helplessness and then shot to death. Search is being made for Frank Wehrman, the husband, who has not been seen since Saturday.

The door of the cabin was padlocked. There were many evidences that the woman, who was 25 years old, had made a terrific struggle to defend herself and child.

CLUB OF TEN GIRLS FORMED TO SPREAD SMALLPOX STORIES

TOPEKA, Kan., Sept. 6.—Dewey E. Highwater today made a confession that he had originated the plan of sending out alarming stories about smallpox in Topeka to prevent people from attending the Topeka state fair.

She, with nine other girls, organized the Sunflower protection club, and each of the girls wrote letters to Kansas newspapers telling of frightful conditions in Topeka.

VICTIM OF TRAIN HAS BEEN IDENTIFIED. JERSEY CITY, N. J., Sept. 6.—The body of a man who was killed here by a train Sunday night has been identified as that of Martin Van Buren of this city, a great-grandson of President Martin Van Buren.

DANGER OF STRIKE ON ILLINOIS CENTRAL NEARLY DISAPPEARS

ADDRESSES TO SHOPMEN AT SACRAMENTO

Union Leaders Declare Federation Movement Will Win.

Krutchschnitt a Back Number and May Be Stock Jobbing.

SACRAMENTO, Sept. 6.—Following a brief conference late this afternoon with J. G. Taylor, business agent of the machinists' union, about international officers of the shop federation of the Harriman lines tonight addressed several hundred shop employees of the Southern Pacific shops at the Labor Temple.

The visiting international officers declared that there was anything significant in their visit to Sacramento. President J. W. Kline of the blacksmiths, who acted as spokesman for his colleagues, stated that the motive for the visit was simply a desire to look over the situation and speak to the shop employees here. Other speakers at the meeting were J. Franklin, president of the boilermakers; M. F. Ryan, president of the carmen, and J. B. Buckalew.

In the course of his remarks President Kline stated that the Southern Pacific employees were facing a crisis and are now engaged in a struggle that will try the soul of every employee.

"I am for peace at all times, even if we have to fight for it," he said. "We have gone so far now that it is impossible to turn back and we don't propose to take the slightest of the other fellows. The various crafts have started a federation and will insist upon its recognition."

SUGGESTS STOCK-JOBBER. He said that Julius Krutchschnitt, vice-president of the Southern Pacific and director of maintenance of the Harriman lines, was lying in the past and that although he (Krutchschnitt) could run a railroad, he could not run a labor organization. He intimated that great railroad strikes were being plotted and that the purpose of stock-jobbing, and he wasn't sure but that wires were being pulled to bring about a crisis in the present situation of the shop employees.

President Kline declared that the Railway Employees' and Investors' association, which is fostered and encouraged by the officials of the Southern Pacific Company, is an organization of railroad employees used by the high officials for political purposes in order to obtain votes to prevent state legislation.

"EMPLOYEES INSULTED." "We don't know just what is going to transpire in the present situation. The employees of the Harriman lines were insulted by Mr. Krutchschnitt when he said he didn't want the management of his ships turned over to irresponsible parties."

J. Franklin, international president of the boilermakers and iron shipbuilders' union, spoke on the purposes of the shop federation, and pointed out the advantages of the various crafts working as a unit in all matters where their interests were mutual. He said that the day of individualism was past and gone, and that the railroad men should unite for the purpose of bettering their condition.

President Franklin counseled the shopmen to stand together in the present crisis, regardless of what might happen. He said that the Southern Pacific Company would use every endeavor to keep the various organizations apart and to prevent the concentration of power from the federation. He declared that the railroad company had agents in every union who faithfully reported everything that transpired at the union meetings.

QUESTIONS REPORTS. President Kline tonight denied as false the reports from Chicago that the international officers of the shop federation would refuse to sanction a strike on the Illinois Central railroad. He stated that he was in close touch with affairs in Chicago and that if a strike was called on the Illinois Central for any just cause the international association would back it up. He did not believe that a crisis had yet been reached on that road.

J. B. Buckalew, vice-president of the international association of machinists, declared here tonight in the course of a speech at a mass meeting of Southern Pacific shop employees that a conference would be held in San Francisco on Friday night for the purpose of arriving at a decision in the matter of a strike on the Southern Pacific system.

JAPANESE INVENTOR OF EXPLOSIVE DEAD

TOKYO, Sept. 6.—Mitsuhiko Shimono, who invented the high explosive known as the Japanese powder, died today.

Mitsuhiko Shimono was professor of applied chemistry. He was born in 1872. For several years he was representative of the munition department of the navy and in the meanwhile completed researches in connection with explosives. His compound was adopted in 1893 by the Japanese navy and for his services he received a decoration and a sum of money.

INTERNATIONAL UNION OFFICIALS REFUSE TO AUTHORIZE ONE

CHICAGO, Sept. 6.—After members of the international committee representing the unions involved in the dispute with the Illinois Central Railroad company had refused today to sanction a strike of the Federated Shop Employees of the road, definite action of any character was deferred until members of the executive board of the International Association of Machinists should meet in this city next Sunday.

The international committee decided it would be unwise to sanction a strike, and agreed to turn responsibility over to the committee of the federation of the Illinois Central shop workmen.

Later, however, P. J. Conlin, vice-president of the International Association of Machinists and member of the conference committee, protested against turning over responsibility to the system federation representatives until the executive board of his organization could be consulted.

James O'Connell, president of the machinists, and other board members, were telegraphed for and will arrive Sunday. Meantime little change in the strike situation is expected and indications point to no strike.

After another all day conference of international officers of unions comprising the federation of railroad employees, the union officers declined to authorize a statement of their position. Though they declared that the question of a strike had not been finally determined, it was reported that they had sent word to the members of the Illinois Central federation that they could strike if they desired, but that the international unions could not authorize such action.

The international committee was in session again tonight seeking to suggest some way to adjust matters without a strike. At the close of the day's conference, W. F. Kramer, secretary of the international association of the blacksmiths and helpers and chairman of the international committee, declared there was no news for the public.

It was reported that many of the international officers, after a careful canvass of the industrial situation, felt that a strike of the shop employees at this time would be inadvisable if not disastrous.

None of the Illinois-Central federation committee members would talk about the situation tonight, but at a late hour it was certain that no strike order had been issued. For the Illinois Central shopmen to attempt the struggle without support of the international, it was admitted, would be folly.

Indian Chief at 108 Years Loses a Leg

TULSA, Okla., Sept. 6.—Himble Walker, a full blood Shawnee Indian, 108 years of age, will live despite the fact that he lost a leg in a railroad accident near here Monday night, his physician said today.

Walker was once chief of his clan. He has lived near Skiatook, Tulsa county, many years.

NEW DREDAUGHT WILL CELEBRATE ANNIVERSARY

NEW YORK, Sept. 6.—The keel of the United States battleship Dredought, the New York, will be laid in the Brooklyn Navy Yard next Monday. The date is the 302nd anniversary of Henry Hudson's entering the Hudson river.

HEAVY SHIPMENTS OF FLOUR TO CHINA

PORTLAND, Sept. 6.—On account of the heavy shortage of flour in north China, 16,000 tons of flour will be shipped from Portland to ports in that country in September and in October. Nine thousand tons will go before the end of September. Because of these conditions steamer space for the next three months is at a premium as the Puget Sound mills are also receiving large orders for flour shipments to Chinese ports.

PIONEER BANKER OF CALIFORNIA DIES

Daniel Meyer, one of the early pioneers of California and prominent throughout all the State on account of his financial ability as head of the banking house of Meyer & Company, died last evening at his home in California. In 1848 he went to New York and in 1851 to San Francisco where he engaged in the tobacco trade until his brother and himself started their banking firm in 1857. His success as a financier has made him known throughout the world.

CHURCH TREASURE IS FOUND IN PORTUGAL

Chests Filled With Bullion Come Down From Colonial Days.

OPORTO, Portugal, Sept. 6.—Agents of the government while taking an inventory of church property today in the underground vaults of the cathedral here, found much treasure, the property of ancient Friars, most of which the authorities of the church had little idea existed. The accumulation of wealth dates from centuries when Portugal was a rich colonial power. The chests discovered are filled with gold knicks and plates and gold ornaments studded with precious stones. The altar furniture is of pure gold.

It is presumed that the treasure will revert to the state under the separation law.

WOMAN IS SHOT AND ASSAULTED BY NEGRO

LOS ANGELES, Sept. 6.—Mrs. William Haskins, 51, wife of a mechanic living on the Long Beach boulevard and one-half mile west of Compton, was shot and instantly killed in the doorway of her home today by a negro who rode up to her gate on a motorcycle.

After the shooting the murderer dragged her body inside the cottage and attacked her. He then rode away on his machine. More than 100 armed men and boys and two sheriffs with horses are now searching for him.

The searchers have a good description of the negro furnished them by several persons who saw him either before the murder or afterward as he rode away from the Haskins home, and it was expected that a capture would be made before dawn.

The neighborhood is greatly aroused over the affair and Sheriff Hammel is expected to take unusual precautions to prevent rough handling of any suspects arrested by his men.

Mrs. Haskins was alone in her home. From bloodstains on the floor it is believed she attempted to get up to the doorbell and was shot as she swung the door open. Her body was found in a bedroom by her husband when he returned home from work at 6 o'clock. The murderer had backed all doors and left the house by climbing out a bathroom window.

Several persons living in the neighborhood saw the negro ride up to the house and leave again a few minutes later but no one has been found who heard the shot.

STUTTGART, Wurttemberg, Sept. 6.—A moderate though prolonged earthquake shock was felt here during last night.

## SEAWARD TO BE GIVEN HEARING NEXT WEEK

**Labor Organizer Will Be Examined on Charge of Extortion.**

Much interest is centered about the preliminary examination of Thomas C. Seaward, second vice president of the State Federation of Labor, on a charge of extortion, which will be held some time next week in the police court. The case is one that is of considerable interest to the labor unions in general, as Seaward is charged with extorting money from Cole Salling, manager of the S & C union, by threatening to call on the union employees from the theater if Salling did not pay certain wages which were alleged to be due an actress.

Salling alleges that the money was paid to the defendant through fear that the latter would injure his business if he did not pay the sum demanded by the union man. It is understood that the attorneys for the defendant will not deny that Seaward threatened to call on the union employees if the sum of money was not paid, but it is said that they will fight on the grounds that the law was not violated when the wages were demanded and the strike threatened.

From the fact that Seaward had his picture taken in the jail while he was locked in a cell and that he was snapped while in the custody of the police, it is presumed that Salling will be sued for false imprisonment should the case be decided in favor of the defendant.

That the case will be hard fought in a legal way is evident as Judge M. K. Harris has been retained to assist the prosecution and attorneys T. N. Thompson and Sutherland and Barbour will defend Seaward.

Fresno labor organizations will support Seaward morally and financially.

## A Home Recipe For Removing Wrinkles

(From Woman's National Journal.) Who will blame the modern woman for trying to look as young and attractive as possible? It is a natural desire and should be placed at a disadvantage in numerous ways by wearing wrinkles, if she can avoid these hateful marks of advancing age?

Few women, however, know what to do to effectively rid themselves of wrinkles and sagging. None of the advertised preparations are satisfactory and most of them are very expensive. But a very simple and harmless home remedy which any woman can make, will work wonders where all the patent preparations fail.

Buy an ounce of powdered alumina at any drug store. Dissolve the whole ounce in a half pint of witch hazel and use it as a wash lotion. The results are practically instantaneous. Marked improvement is noticed immediately after the very first trial. Wrinkles and sagging are corrected and the face feels so refreshed and snug-like.

**Your Eyes Earn Your Living**

Are your eyes in the best condition to stand the work that you require of them? You know that if your eyes can not stand the work that you will be out of a position. You will be unable to obtain any kind of work that will allow your eyes to rest.

Better to have your eyes examined now and correct the defect. Do not allow it to grow greater. I have had many years of experience and employ the most modern scientific methods. All the glasses I prescribe are made under my personal supervision.

Agents for Pabst Brewing Co.,  
1017 J ST., FRESNO, CAL.

## SANTA FE SPREADING CRUSHED ROCK ON BED

**"Ballast Gang" Is Now 43 Miles North of Bakersfield.**

The "ballast gang" which is spreading crushed rock over the roadbed of the Santa Fe in California, is now working at a point forty-three miles north of Bakersfield. The crew commenced at Corcoran in this section of the valley and worked north to Calmar. After this had been completed, the crew returned to Corcoran and started south toward Bakersfield. Twenty miles of this track has been covered, leaving forty-three miles to be done. The work is spreading the crushed rock at the rate of 2,000 feet per day. The work, when completed, will cost the Santa Fe about \$4,000 per mile. The distance between Corcoran and Bakersfield is sixty-three miles.

## EXPLOSIVE FOUND IN QUEER PACKAGE

After making an analysis of the queer shaped object found under the desk in the office of Attorney Thomas Ingersoll, a chemist yesterday announced that he had found explosives in the package, but that the bomb was so crudely constructed that he doubted very much if it could have been exploded.

Early yesterday morning Attorney Ingersoll's assistant to police headquarters which he had found in his front yard two or three days ago, Ingersoll stated that several nights ago he heard some one prowling around in his yard and that upon investigation the intruder ran but dropped the package. The police are working on the case but have discovered nothing.

## ARE FINED FOR STEALING RIDES

George Harvey, colored, was sentenced yesterday to pay a fine of \$1 for evading the payment of railroad fare while at Corcoran and Fred Thompson was sentenced to the county jail for a period of ten days for the same offense. City Justice Graham passed sentence on the three men. These are the first cases of this nature that have ever been tried in the local courts.

## VISALIA TAX RATE REDUCED 10 CENTS

VISALIA, Sept. 6.—The city council tonight fixed the city tax rate for the ensuing year at \$1.50, a reduction of 10 cents from last year's rate. Recently the assessment was raised 25 per cent in order that the city might purchase additional fire fighting apparatus. This increase resulted in a reduction of 10 cents in the city tax rate.

## SKAGGS' BRIDGE TO REMAIN UNCHANGED

Supervisors Not Certain as to Permanency of Navigation on the River.

The supervisors are in no haste to make a drawbridge of the concrete structure on the San Joaquin at Skaggs' crossing. Consideration is given yesterday to the request of T. J. Hammond for early action to put in a draw to accommodate river traffic as far as Herndon in the proposed winter and spring navigation of the river, and saving the land haul to Fresno from Skaggs' bridge as the present practice of river navigation by reason of the bridge obstruction. The board indefinitely postponed action on the request. This was on the motion of Supervisor Martin for the reason that the time has not yet arrived to consider the sense of granting the bridge to the river, in view of the doubtful prospects of the permanency of freighting activities on the San Joaquin.

## FOUR-YEAR-OLD LAD TRAVELS TO MADERA

Isadore Arrollan, age four years, was yesterday morning sent to Madera by William Harvey, Sr., with a note pinned on his little coat telling the conductor that the boy was to be put off at Madera and the stage driver would take the lad to O'Neals and turn him over to Mrs. Alice Parker, who had made arrangements with the Fresno County Humane Society to keep the boy.

As recently the stage had been changed to Friant, the little boy was unable to continue on his journey. The railroad men came to his rescue and put another note of his coat and returned him to Fresno yesterday afternoon. This morning the boy will be sent to Friant and from there he will be taken to the home of Mrs. Parker.

## MAY BE CHARGED WITH BURGLARY

Although H. C. Walker, charged with vagrancy, appeared before Judge Briggs yesterday and pleaded not guilty and was returned to jail, a more serious charge will this morning be lodged against him. It is alleged that Walker entered a room in a local lodging house and stole a pair of shoes. The shoes were pawned and Walker has been identified by the second hand man.

Patrolman Cronkrite and Hardinbrook arrested Walker Tuesday and yesterday noon he was identified by the second hand man. He will either be charged with burglary or vagrancy. This will be decided upon as soon as the police detectives ascertain in what manner Walker entered the room.

## STOLEN TIMEPIECE FOUND ON WILKIE

Since the arrest of John Wilkie Tuesday on a charge of disturbing the peace the police have learned that Wilkie is the man who held up and robbed Jerry Crowley last Monday night in front of a lodging house near H and Kern streets. Yesterday Wilkie was identified as the man who had committed the crime. When searched at the county jail a silver watch was found in his possession. It was later learned that this watch belonged to Crowley. Wilkie has been in trouble before. He recently served a six months sentence for robbing the Salvation Army of their musical instruments.

Others are imitations.

Special Agent, Monroe Drug Co., 2002 Mariposa St.

## SUIT IS BEGUN OVER HOTEL DE BASCONGADO

**Bidegaray Accused of Forcing New Proprietors Out of the Place.**

Attorneys Bonestell and Erickson brought suit yesterday for B. Bidegaray and A. Yrizar against John Bidegaray asking that he be compelled to make refund of \$2000 paid in cash, also a note for \$3000 payable in six days and furthermore that he render an accounting of his management for them of the Bascongado hotel on G street.

The plaintiffs say they bought the hotel business from Bidegaray in April, 1909, for \$5000, paying \$2000 cash and giving the note for \$3000, and bargaining to turn over the good will and bring about a transfer of the business to them. The plaintiffs say they were ignorant of everything relating to the conduct of a hotel, and finding it necessary to employ some one who had that experience charged Bidegaray with the management of the hotel. The management under the new regime was not successful, however, and Yrizar and Erickson have never transferred the lease of the property from Bidegaray to the plaintiffs. The plaintiffs have not made over the saloon license and has not even caused a change of the hotel name and proprietorship sign over the hotel door.

They go even further to declare that when they made the purchase they were told that Bidegaray was a man of good faith and reputation. The accounts showed an excess of receipts over expenditures whereas under his sub-management the balance was found to be on the wrong side of the ledger account, and according to their belief he is managing the hotel with the intent of making them in financial difficulties and to restore himself in absolute charge.

Indeed, say they in their complaint, Bidegaray permitted attachments to be levied on the hotel but causing them to be dismissed took exclusive charge and has turned the place over to them. They also allege that the accounts have been kept in such a manner by Bidegaray that no one save he can decipher them.

## SKAGGS' BRIDGE TO REMAIN UNCHANGED

Supervisors Not Certain as to Permanency of Navigation on the River.

The supervisors are in no haste to make a drawbridge of the concrete structure on the San Joaquin at Skaggs' crossing. Consideration is given yesterday to the request of T. J. More healthful than Tea or Coffee. Agrees with the weakest digestion. Delicious, invigorating and nutritious. Rich milk, malted grain, powder form.

A quick lunch prepared in a minute. Take no substitutes. Ask for HORLICK'S.

Others are imitations.

Special Agent, Monroe Drug Co., 2002 Mariposa St.

## TIDEWATER COMING TO FRESNO, NOW EXPECTED

**Definite Statement to Be Made Soon; Steel on Ground Now.**

It is announced as a result of a conference held the first part of the week between M. J. Duncan, Merced manager of the Tidewater & Southern railroad, and Manager Hurrest, at Stockton, that prospects of the extension of the road to Fresno are exceedingly bright. A definite announcement in regard to this matter is to be made in a few days. It is declared, when a statement is to be given out from the head offices of the company, in San Francisco. Three carloads of steel rails for this road arrived at Turlock Tuesday, and the laying of these is scheduled to commence at once. Already a large amount of grading has been done, and ties and steel are on the ground for construction work on several points.

## COUPLE SEPARATED BY MISSION AGENT

A new chapter was written in the story of Charles Crum of Kingsburg, and the Punery girl he tried to marry here Sunday, falling on account of the fact that she already had a living husband somewhere. At Crum's home Sunday evening, when an agent of the Penal mission here followed the two to Kingsburg, and had them shipped back here by the officers of the law. It is declared Crum represented the girl to his parents as his wife. A man was threatened at the depot when the Penal mission agent from Fresno had the couple put on board a northbound train. The parents of the man raised an objection, but the disturbance was quieted by two officers who had assisted in the case. The couple was brought to police headquarters here, the man sent home and the girl turned over to a woman agent of the mission.

## MRS. BAKER DIES AFTER OPERATION

Mrs. June Baker, formerly of this city, died yesterday morning in San Francisco following an operation. She was 23 years of age. The remains will be shipped to Fresno and funeral services will be held here. Mrs. Baker was the wife of W. H. Baker, a theatrical manager. She is survived by Mrs. W. H. Baker, a sister and Cliff Shaw, a brother, both of this city. Mr. and Mrs. Ruggles left last night for San Francisco to bring the body to Fresno.

## DR. M'CORMICK TO GIVE LECTURE HERE

Dr. J. M. McCormick of the American Medical association will deliver a popular lecture in the High School Auditorium on Wednesday, the 13th. The address will be untechnical and is designed to cause a better understanding as to the relation of the public and the medical profession. He will also deal with the question of public sanitation.

## SECOND TIME IN HISTORY, ENGLISH CHANNEL IS SWUM

Excitement in the boat was intense as Burgess forced himself into slack water. Then another fifteen minutes of painful, but plucky, swimming brought the gigantic task to a successful conclusion.

Weldmann finished the swim with Burgess and supported him up the sandy shore. The whole party from the boat waded into the water and cheered lustily. Burgess splashed the last 200 yards with the left over-ear, the stroke that had given him the victory.

LONDON, Sept. 6.—The King tonight sent a telegram of hearty congratulation to Burgess.

## O. H. HELL HAS NAME CHANGED

NEW YORK, Sept. 6.—O. H. Hell applied to County Judge Grant in Brooklyn yesterday for an order changing his name to Otto Hill, for business reasons.

"I am about to open a confectionery store," said Hell, "and I want my last name in big electric letters over the door. I don't think it would look very well."

"The court agrees with you, Mr. Hell," said Judge Grant. "Bring the papers in and I'll approve them."

## EPISCOPAL APPOINTMENTS APPROVED BY THE POPE

ROME, Sept. 6.—Pope Pius today ratified the decision of the consistorial congregation presented by Cardinal Delal appointing Right Rev. Jos. M. Kulelska of Cleveland as auxiliary archbishop of Milwaukee.

The appointment of Right Rev. Monsignor J. M. Laval, vicar general of the archdiocese of New Orleans, to be auxiliary archbishop of New Orleans also was ratified.

## LOST ON MT. RAINIER

BOSTON, Sept. 6.—Leigh Garrett, the Boston man believed to be lost on Mount Rainier, is a son of the late J. A. Garrett of Fairhaven, Mass. The young man's mother, Mrs. A. P. Garrett, lives on Mountain Vernon street, Boston, and is the manager of a silk store in the back bay district.

Leigh Garrett, who is about 25 years old, was a student of Harvard college and the University of Wisconsin, but was never graduated from either one.

## BARREN OF RESULTS SAYS KRUTTSCHNITT

Conference With Representatives of Unions Are Fruitless.

KANSAS CITY, Sept. 6.—"Barren of results," is the way Julius Kruttschnitt, vice president and director of maintenance of the Harriman lines, described the outcome of the conference with representatives of the Federation of Shop Employees in San Francisco last week, here this afternoon. Kruttschnitt was enroute to the east from San Francisco. He left for Chicago over the Santa Fe at 6 o'clock.

"I haven't heard anything from San Francisco since I left there. I consider our conference in San Francisco barren of results—but is, it did not change the situation."

"Kruttschnitt declined to discuss in detail the demands of the labor unions, except to say that the demands of the labor representatives were the strongest ever put up to the roads."

"What can you say regarding the general industrial conditions in the country; that is, labor and capital?" he was asked.

"Oh," said Kruttschnitt, "they've got to get together. Just like a man and his wife—they may have their 'spats,' but they are obliged to get along."

## FUNERAL NOTICE

Friends and acquaintances of the late Anton Vlahovich are respectfully invited to attend the funeral services to be held in St. Mary's Catholic church of Sanger, Thursday, September 7, 1911, 2 p. m. Interment at Bethel cemetery near Sanger.

Fifth Avenue, 34th and 35th Streets, New York.

## NEWMAN-FOLTZ CO. IN "THELMA" AGAIN TONIGHT AT THE BARTON

Scene from "Thelma," which will be presented again tonight at the Barton.

Tonight is the last performance of "Thelma" at the Barton theater. This interesting play is one of the best things in the Newman-Foltz repertoire; the quaint characters of that northern land are well taken by the Newman-Foltz players. Miss Foltz in the name part gives a charming portrayal of the sweet, pure, and the quaint characters of that minded little nurse girl who is wooed

and won by an English nobleman, and in her emotional scenes she is excellent. The other characters are well sustained and the scenic investitures are artistic and appropriate. Tomorrow night the company will appear in the brilliant story of the Revolution, "At Valley Forge," a play that has met with huge success wherever presented and the Newman-Foltz players will have plenty of opportunity to show their versatility. It paints a vigorous picture of war, and everyone who is familiar with American history will appreciate the portrayal of many favorite characters. The heart interest is furnished by the love of a fair daughter of the Tory general for a handsome young officer in the Rebel army, and her noble defense of her lover against great odds is one of the thrilling scenes of the play. The big roles are in the hands of Miss Foltz and Mr. Newman, and the balance of the company is well cast. New specialties will be given at every performance and the prices are 10, 20 and 30 cents. Seats are on sale for every performance.

### BONINE NOT ARRESTED; ACTION CIVIL ONE

Editor Republican.—A serious injustice was done to a client of mine, Mr. H. O. Bonine, of this city, in the news columns of the Republican this morning. The item states that justice of the Peace Smith had discovered a charge of attempting to defraud a highwayman, that Mr. Bonine was the accused and had been arrested. The facts are that an automobile driver instituted a civil suit against Mr. Bonine to collect the sum of \$5 charged for carrying Mrs. Bonine to clinic in a small machine, the trip occupying half an hour. Mr. Bonine disputed the charge on the ground that it was excessive and the case was set for trial. For reasons in which it is not necessary to go, Mr. Bonine, acting upon my advice, yesterday paid the amount of \$5 and costs amounting to \$3. That the report was inspired by an ignorant and malicious person, who imposed upon the paper, is too apparent to be disputed. Trusting you will give the same publicity to this statement of the facts as was given to the erroneous report, I am, yours truly,

HENRY HAWSON.

### SCHOLL REPORTS MONTH'S ACTIVITY

Horticultural Commissioner Scholl reports to the supervisors having inspected 70,000 foreign grown deciduous seedlings last month, finding them free from insect pests and diseases. Four colonies of *Vrylogomus orbiculus* were liberated in an affected vineyard and three colonies of *cryptosporus* were liberated in affected citrus trees. One notice was served on an orchard owner to clean up or destroy a fruit pest existing on his property. Inspection was made also of alfalfa fields and railroad rights of way in the county to find if possible a small insect (*phytonomus muricatus* or alfalfa weevil). No trace was found of the pest.

### BAND OF GYPSIES HAVE RETURNED

A band of gypsies, who last year were run out of town by the police, have returned to Fresno and are now camped on Mariposa street between C and D streets. Detective John Goehring yesterday visited the camp and warned the men members of the camp that they must conduct themselves in an orderly way or they would be ordered from the city. Last winter, while in Fresno, the gypsies caused considerable excitement in that part of the neighborhood by the filthy manner in which they allowed their children to roam about. They were brought into court by Constable Drenth but upon the promise that they would do better in the future the case against them was dismissed.

### Particularly the Ladies

Not only pleasant and refreshing to the taste, but gently cleansing and sweetening to the system, Syrup of Figs and Elixir of Senna is particularly adapted to ladies and children, and beneficial in all cases in which a wholesome, strengthening and effective laxative should be used. It is perfectly safe at all times and dispels colds, headaches and the pains caused by indigestion and constipation so promptly and effectively that it is the one perfect family laxative which gives satisfaction to all and is recommended by millions of families who have used it and who have personal knowledge of its excellence. Its wonderful popularity, however, has led unscrupulous dealers to offer imitations, which act unsatisfactorily. Therefore, when buying always note the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package of the genuine Syrup of Figs and Elixir of Senna; to get its beneficial effects. For sale by all leading druggists. Price 50 Cents per bottle.

## EMPIRE THEATER TO OPEN ITS WINTER SEASON MONDAY, SEPT. 11

MANAGER HOEN SECURES FRANK THORNE GO.

Clifford Thompson, leading man of the Frank Thorne Co., at the Empire Theater next week.

The many patrons of the popular Empire theater will be pleased to learn that Manager E. Hoehn has returned from his vacation and will open his house to the public, Monday, September 11th. Mr. Hoehn's luck is still with him. He is fortunate in securing the services of Mr. Frank Thorne, a well known actor with a world of experience and popular with theatergoers in Fresno. Mr. Thorne has surrounded himself with a clever company of players and the standard of Empire plays will be maintained. Mr. Clifford Thompson of the Richmond company, will be seen in the cast playing the juvenile leading roles. Miss Myrtle Langford late from the Cecil Spooner and Polla Stock companies of New York, also with the Henry Miller company for two seasons, has been engaged for the female leads. She is a very charming little lady with a personality that is simply irresistible. Miss Fowler-Jones, a character actress and is said to be one of the best on the coast having played in stock at the Alcazar in San Francisco for more than a year. Dainty little Ella Houghton plays the southerner. Miss Houghton comes from

Canada having played a long season with the Pearl Allen company. There is also a real comedian with the company. Mr. C. Rex Berger who has played at the Empire before and has many friends who will be glad to see him again on the boards of the Empire. Max Waelman is a clever, juvenile and character man and can be depended upon to give a good account of himself. Albert Edmondson plays anything and plays it well. Miss Lisetta Holdsworth is the second leading lady and last comes Frank Thorne, the director. Mr. Thorne is a heavy character leading man, also a heavy man and when he plays the villain he certainly is the most villainous villain imaginable. George Hernandez has been engaged to paint the scenery. Manager Hoehn promises the patrons of his house a treat in the production of the first week offering, "The Gray Kitten," a comedy drama with two laughs to a line. The seat sale opens Saturday. The prices are 10, 20 and 30 cents. Matinees Saturday and Sunday, 10 and 20c. The opening date, September 11th, the play, "The Gray Kitten," the time, 8:15 p. m. the company, the best ever. Order seats by phone 942.

### SMALL HOME DESTROYED BY MYSTERIOUS FIRE

Fire Chief Averts Serious Collision at Tulare and J Streets.

Fire of unknown origin last night destroyed the home of Mazie at 1129 C street. The loss is estimated at \$1500 with \$1200 insurance. The fire was discovered by several small boys who were playing in the street in front of the residence. When the boys saw flames creeping through the roof they immediately shouted "fire" and an alarm was turned into fire headquarters.

Only by the hard work on the part of the fire department were the flames confined to the one residence. The occupants of the house next thought for a time their home would be destroyed and all of the furniture was moved out.

Mazie and his wife were in the next block calling on a friend at the time the fire broke out. Hearing the alarm and seeing a blaze in their neighborhood they went to the fire and discovered that it was their home. Mrs. Mazie became hysterical with grief and was taken into a neighbor's house.

Mazie stated that he could not account for the fire as he did not leave any fire in the stove when he left his home. He stated that he had no enemies as far as he knew and that he did not believe any one set fire to his home.

In responding to the fire chief Wintennute barely averted a serious accident. The chief was driving his motorcycle down Tulare street at a fast clip when at the corner of J street a car came around the curve and the fire chief just missed running into the car.

### VACATIONS ARE OVER; FRESNANS RETURNING

Ending of Summer Trips and School Opening Brings People Home.

Incoming trains are "loaded to the guards," according to Southern Pacific officials who reported yesterday that they had not seen so many arrivals at the depot in several months. All trains are unloading their supply of human freight at the depot and the arrivals continue without any sign of abatement.

The railroad officials say there is very little travel out of the city, most of the people coming in. The closing of summer vacation trips and the opening of the public schools here next Monday cause for the influx. Freshmen are returning home from camp and many in resorts a week before school opens in order to prepare their children for the ensuing term.

This is the time of year when the average vacation trip comes to an end and many business men are returning to their desks.

The demand for tan button boots for women continues into the fall season. Tans will be standard fashions for fall and winter.

## BLANKET INDUSTRY NEEDS ENCOURAGING

Government Plans to Make  
the Navajo Indians  
Work.

WASHINGTON, Sept. 6.—Navajo Indians should stop attending dances, feasts and "chicken pull" celebrations and devote attention to sheep raising and blanket weaving, according to reports received at the Indian bureau which point out that the Navajo squaws are the "grub getters."

The Indian bureau is gathering information on the Indians and traders with whom they deal as to the extent of the Navajo sheep and blanket industry. It is believed the reports will show that this New Mexico-Arizona tribe of Redmen sells annually between \$400,000 and \$500,000 worth of blankets. The government wants to touch them on the value of this industry and of raising a variety of sheep which will give them better wool than they obtain from the native sheep they now use.

It is estimated that the Navajos have one million sheep, of which 50 per cent are native. Fully 80 per cent of the tribe live from some work connected

with the sheep and blanket industry. Practically all the blankets are made by the squaws who, with the children, do the much of the work of shearing, washing and shearing and wool carding and spinning. One report said that if the "blacks" would help the women make blankets they could earn an average \$500 a year to a family, which is more than the average salary of the best factory of this country. Another report declared that "generally speaking the Navajo is not a productive factor in the two great industries of sheep raising and blanket weaving."

## PANAMAN MINISTER MARRIED BY PROXY

NEW ORLEANS, Sept. 6.—Although Dr. Belisario Porras, minister of Panama to the United States, has been too busy to leave Washington, he was married last week at San Jose, Costa Rica, to a member of a prominent Costa Rican family, according to advices received here from Costa Rica. The wedding was by proxy, which is sanctioned by the government, although rarely resorted to in the Latin-American. Belisario Porras is expected to sail soon to join his husband in Washington.

## INJUDICIOUS LETTER CAUSES DISAPPEARANCE

Missouri Church May Tell  
Pastor to Come  
Back.

CHAMBERLAIN, Mo., Sept. 6.—A letter written by Rev. H. Howard Johnson to a young woman of his congregation and a letter written to the minister by Oscar Johnson, a bank clerk, are now believed to have been the causes of the pastor's sudden disappearance from the Southern Methodist church and his departure from Chamberlain.

"God knows me all" was the only explanation in Johnson's message to the Missouri conference. In a letter to Presiding Elder Lehmann at Macon, Mo., he wrote:

"I have not been guilty of immorality but of injudicious conduct through correspondence."

It became known today that Pastor Johnson's "injudicious" letter was written to a young woman who had shown marked admiration for him and she had been a frequent visitor at his home. The letter was found by Oscar Johnson's sister and was shown to Oscar Johnson, an official of the church. He wrote the minister a letter.

Rev. Johnson is believed to be in Iowa. He will deliver in his home and official board of the church is to meet today and it is expected that resolutions of confidence in the minister will be passed.

## MALE FLIRT COP IS PLANNED FOR DENVER

Don Juan Policeman Will  
Be Gotten Up to Take  
Feminine Eye.

DENVER, Colo., Sept. 6.—Are you tall, good looking and magnetic as to personality—the sort of man that women will turn to look at? If you are there is a job waiting for you in the Denver police force. You won't have to wear a blue coat and brass buttons—your uniform will be the best the tailor can produce—for your task will be to lure unwary females too flirtatiously inclined into the police net. In a word Denver, patterning somewhat after Los Angeles, is to have a "flirt cop," but this individual is to be a man, a Puritan in Don Juan guise, who is to discover when rogues smile, a sparkling eye, and a flash of slyly arched spring from sheer feminine coquetry.

## TRICKS RELATIVE OF GEORGE WASHINGTON

Small Boy Upsets Girl and  
Is in Turn Thrashed  
By Her.

MOUNT VERNON, Sept. 6.—One small boy of this city has learned that it does not pay to try practical joking on the great-grand-niece of the father of his country, even if she is only 3 years old. Albert Kahanman, 6 years old, is the small boy, and he has been admonished by the court here not to interfere with Miss Mary Washington Morosini, who charged him with assault in the third degree. The young woman was roller skating near her home when young Kahanman playfully shoved a stick in front of her and then laughed uproariously when she went down on her nose with a crash. "When I got up I had to thrash him," she said.

The court listened gravely and then dismissed the case with a reprimand. "Keep away from Mary," was the court's advice to the boy. Then, turning to George Washington's descendant, the judge added:

"And don't you take the law into your hands again, Miss."

Mary's mother, who was Mary Washington Bond, a noted beauty, is a great-granddaughter of Colonel Samuel Washington, brother of George Washington. Miss Mary's paternal grandfather was Giovanni P. Morosini, a millionaire banker and confidant of Jay Gould.

## FRANK STANTON POEM SAVES CONVICT'S LIFE

SALEM, Ore., Sept. 6.—Frank L. Stanton's poem, "The Hungry Boy," saved the life of Jesse P. Webb yesterday, so Governor Oswald West said. Webb, who was convicted of the murder of William A. Johnson, a ranchman, instead of being hanged at noon, was the guest of honor at a convict dinner in the penitentiary. Webb's sentence was commuted by Governor West five minutes before the time appointed for the hanging.

Governor West said that he was influenced to grant the commutation after reading the poem.

## REMARKABLE GAS FLOW IS STRUCK IN CANADA

CALGARY, Alberta, Sept. 6.—While drilling in what is known as No. 4 well at Bow Island a few days ago, drillers employed by the company which recently obtained a charter to supply gas to this city, struck a flow which, according to experts, will reach 25,000,000 feet each 24 hours.

10-YEAR-OLD KILLS  
12-YEAR-OLD FOR  
STEALING APPLES

LAMAR, Colo., Sept. 6.—Because twelve-year-old Vernie Hiltabridges disregarded ten-year-old Willie Rowe's injunction not to take any apples from the orchard of his grandmother, in which the two were playing, young Rowe ran to the house yesterday, procured a gun and shot his playmate through the heart, killing him instantly. The boy disappeared.

## FORMAL NOTICE OF EXPOSITION TAX

Formal notice came yesterday to the supervisors from the state board of equalization that 5 cents on the \$100 of taxable property has been fixed as the rate on the assessed valuation of property in the state in aid of the Panama Pacific International Exposition. The supervisors are required to levy and state tax upon the taxable property in the county when determining the county tax rate on the third Monday this month. This 5 cents tax rate will be the only one collected by the county tax collector for state revenue purposes.

## GAS MAKING ENGINES WANTED BY NAVY

WASHINGTON, Sept. 6.—The naval engineering bureau is contemplating the construction of a vessel equipped with gas producing engines. It is claimed, as a means of propulsion. It all depends on the willingness of the private makers of gas engines to cooperate with the ship builders. Owing to the lack of funds for experimental purposes, the navy department is obliged to rely upon private builders of ships and machinery to carry out any novel idea such as this.

It is proposed to invite bids for the construction of a submarine boat tender, a vessel of probably less than 1,000 tons displacement, and the bidders will be invited to submit proposals for placing gas engines on the ship, the gas to be supplied by a system of retorts somewhat like those of city gas works. Thus the gas from the coal will be turned directly into power in the engines instead of being consumed to produce steam. Wonderful economies in cost of operation are claimed for the new system, which is now being tried out in a small way in Germany and England.

The principal engineering difficulty to be overcome is to keep the large cylinders of the engines necessary to drive a ship of any size at a temperature low enough to prevent the destruction of the engines or their stoppage, and so far the largest engines yet constructed are of ridiculously small power compared with the giant turbines of modern battleships.

## VERBAL PORTRAIT SYSTEM TO BE USED

NEW YORK, Sept. 6.—The New York police department will begin in a few days a test of the French "verbal portrait" method of catching criminals. The system, which has worked well in France, consists of an analysis of the features of criminals in which noses, ears, eyes, etc., are classed carefully. The detective hunting for a man with ears or nose, for instance, of one classification, can eliminate at a glance a person not wanted.

If one feature conforms to the description, a second is looked for. Its absence eliminates easily another large proportion of suspected persons. When two or three facial characteristics are discovered, an accurate expression is made until nothing eliminable remains.

The possessor of all features corresponding to the description should be the man wanted.

## RECALL OF JUDICIARY PROPOSED IN COLORADO

DENVER, Colo., Sept. 6.—An amendment to the Colorado constitution providing for the recall of the judiciary, as provided in the Arizona constitution before it was eliminated by President Taft, will be submitted to Colorado voters at the next state election, if the campaign started by the Direct Legislation League is successful. The league's judicial committee has approved the judiciary recall and recommended that steps be taken at once to initiate such an amendment.

## FAMILY AND CHICKENS MAKE 1900-MILE TRIP

MIDDLETOWN, Conn., Sept. 6.—A party consisting of Mr. and Mrs. C. W. Kirkham, Jr., and their four children has just arrived here in a wagon from Minnesota, completing a trip of 1900 miles from Staples, Minn., which they left last Sept. 28. The party averaged about thirty miles a day. Seventy Minnesota chickens, carried in a small coop under the wagon, arrived here, hale and hearty, having laid their usual average of eggs all the way.

## NICARAGUA EDITOR ARRESTED FOR SEDITION

BLUEFIELDS, Nicaragua, Aug. 31, via New Orleans, Sept. 6.—Jorge P. Webb, editor of El Diario de Bluefields, his brother, and Santos Abella, a former official of the customs house, were imprisoned yesterday. Today they were placed in irons and sent to the interior aboard the government gunboat San Jacinto.

## BEEF PACKING PLANT BURNS AT BIRMINGHAM

BIRMINGHAM, Ala., Sept. 6.—(AP) today destroyed the cold storage plant and beef packing plant of the Armour Packing company, a five-story building with complete refrigerating, sausage making and packing apparatus. The loss is estimated at \$200,000.

The fire started in the beef room. Its cause is not known. The plant was opened here about two months ago.

Slight damage, due to smoke and water, was done to the plant of the Cudahy Packing company and other concerns with buildings nearby.

EMPLOYERS ARE LIABLE  
While it will be to the advantage of all employers to insure against accidents to employees, great care should be taken in the selection of insurance policies. Accept one only when it covers the entire liability and absolutely binds the company. THE FIDELITY & CASUALTY CO. of NEW YORK issues such contracts. It will pay you to see me before taking any other.

## Auction Sale —ON— Thursday, September 14

Commencing at 10 O'clock A. M.  
At the property formerly known as the old Lew Wagner ranch; 6 miles south of Selma, 20 miles south of Fresno, 5 miles southwest of Kingsburg, 9 miles northeast of Lemoore, and 10 miles north of Hanford.

**125 Head Holstein Dairy Cows**  
Extra Fine Young Animals—Milking 80 Head Now, Balance Fresh and Coming Fresh.

All of these cows are in first class condition and are large, heavy milkers. The best dairy herd to be found in the San Joaquin Valley.

**40 HEAD OF HEIFERS**  
From the best cows, mostly Holstein, and in excellent condition.

**75 HORSES, MARES, MULES AND COLTS**  
About 25 head of extra good work and brood mares; some with horse and mule colts by their sides, and bred back.

A few unbroken 4-year-olds. About 25 head 2 and 3-year-old colts. Some excellent family and driving. Some good unbroken young mules. These horses are all in good form.

Several extra good Saddle Horses, and ABSOLUTELY NO CULLS.

**STALLIONS**  
KEND  
Belgian Stallion  
Seven years old, dark bay, weight 1650. Very active, well mannered and has a fine disposition.

Mammoth Black Jack—A rough made, heavy boned, solid black Jack. A sure foal getter.

**BIG FREE LUNCH**  
Mr. H. M. Bernstein states this is the finest herd of Dairy Cows that he has ever been his privilege to offer at auction sale. Absolutely no Culls. Any person wishing to inspect this herd can do so by calling at the ranch and asking for foreman.

Remember, sale commences at 10 A. M.  
TERMS CASH.

Popular "Thor IV" New 1912 Models

PRICE REDUCED FROM \$240 TO **\$215**

The price on the ever popular and efficient Thor has been reduced. The machine is a better machine than ever before. The new 1912 models have all the many good points that have made the Thor the standard, and in addition has many minor refinements. The flat belt is used on the 1912 models. Instead of an idler, such as other motorcycles use, it has a special idler that gives practically a free engine.

This is regular with the 1912 model. There is no additional charge. The perfect oiling system of the Thor is continued in the new models. The Thor combines the good features of all machines. It has none of the bad ones. Come in and see the new models. We take pleasure in explaining the superiority of the Thor. We will prove to you by going into every detail that the Thor is the machine to buy because it gives the service.

**S.S.S. NO HARMFUL MINERALS  
PURELY VEGETABLE**

S.S.S. is the only remedy that can be used with perfect safety in the treatment of Contagious Blood Poison, and with the assurance that a lasting cure will result. There are certain mineral medicines which will temporarily remove the external symptoms of Contagious Blood Poison, but when the treatment is left off the disease always returns in worse form, and the delicate tissues of the stomach and bowels are usually injured by these strong minerals, and frequently stomach trouble, chronic dyspepsia, and mercurial Rheumatism are added to the destructive blood poison. S.S.S., made entirely of non-injurious roots, herbs and barks of recognized curative and tonic value, removes every particle of the virus from the circulation, and by enriching and strengthening the blood, cures the disease permanently. S.S.S. does not hide or cover up the symptoms, but removes them by first eliminating the cause. Home Treatment Book and any medical advice free. S.S.S. is sold at drug stores.

## STARTING NEW MOVE FOR REALTY EXCHANGE

Propose to Incorporate It  
Here at an Early  
Date Now.

Immediately following the calling off of the meeting of real estate men, which was to have been held today, for the purpose of organizing a real estate exchange for this city, and because of the fact that the plan was being discussed, and would be abandoned, a number of men interested in it got together yesterday, interviewed the men who have been behind the move so far, and announced later that they would start the movement afresh, with a view to

incorporating an exchange at an early date, under the name of the "Fresno Real Estate Exchange." This organization has been proposed in order to introduce better conditions among the real estate men themselves, and also to give better facilities for the selling of property. The men who are now working it up say they will get all the people who signed up to join the previously proposed exchange to sign anew, and will shortly announce the date of a dinner at a local cafe at which the movement will be launched.

## GRACE M. E. CHURCH TO HOLD RALLY

At Grace M. E. church today and tomorrow a missionary rally will be held. This evening at 7:30 Dr. John Lloyd Pittner will give a short talk on Missions. Tomorrow evening at the same hour, A. M. Drew will speak. In addition to the addresses, a program will be rendered each night. In the afternoon, beginning at 2:30 o'clock, articles will be placed on sale, the proceeds to be devoted to the mission. All gifts are to be left at the parsonage, 3326 Inyo street.

## WANT BIG CROWD OUT TO GREET DAVID LUBIN

Visitor Due Tomorrow to  
Talk on Statistics of  
World Crops.

Every effort is being put forward by the Chamber of Commerce to assure a large turnout of business men tomorrow afternoon to hear a talk David Lubin of Sacramento will make on his work in connection with the gathering of world-wide crop statistics. Lubin, who is a scientist recognized the world over for his accomplishments, will be here in response to an invitation of the chamber. He is on his way to Los Angeles to speak there.

He has been described as "one of the commanding men among the savants of the world." This is the more remarkable from the fact that he is a "self-made" man purely. For several years he has been among the speakers at meetings of the British association, which is addressed by the leading men in the fields of literature, art and science.

The specific subject of the talk he will make here will be his work with the agricultural congress in Italy. Lubin's idea of an organization which shall collect and furnish more complete crop reports from all parts of the world, for the betterment of business organization, has been enthusiastically taken up by the king of Italy, who has built a special building for the headquarters of the congress.

## WILL FURNISH NEW IDEAS ON RAISINS

Ideas on the raisin business which are expected to be of benefit in future advertising are to be submitted to the Chamber of Commerce here soon by "The Modern Grocer," according to a letter received here yesterday. In this letter, it is stated that a number of the ideas come from brokers who handle raisins in the regular course of business. This publication also notifies the chamber that photographs of the prize winners in the Raisin Day window display contest have been published.

## ANOTHER LINK IN GREAT ROAD

CALDWELL, Kas., Sept. 6.—Another link in a great north and south road, which according to present plans, will connect Galveston, Texas, and Winnipeg, Minn., was completed today when the county commissioners of Stummer county, Kas., established as a county road the old Chisholm trail from Wellington to this city, a distance of twenty miles.

## PUPILS LACKING, SUSPEND SCHOOLS

Sycamore and Mechanicsville Districts  
Fall Below Limit in Attendance.

Sycamore and Mechanicsville school districts, located in the foothills, were suspended for one year yesterday by the superintendent on the recommendation of Superintendent Lindsay. The suspension was obligatory under the law because the school attendance had fallen below 5 in each district—in fact, 4 in Sycamore and 3 in Mechanicsville. If by the opening of the next school term in September, 1912, either district could round up 5 pupils the suspension will be revoked and the district revived. Meanwhile the trustees will go on in office as if actively doing business, the regular appropriations will be made, but there will be no school and no teacher and no warrants will be honored by the superintendent. The pupils will have to go to the next nearest school that they may be permitted to enter, and in September 1912 the re-established district will resume business with the accumulated allowances made for the year of suspended activities.

## NEEDHAM SAYS LEMON FIGHT IS NOT OVER

Predicts Renewal During  
the Next Session of  
Congress.

Renewal of the attempt to put lemons on the free list is predicted for the next session of Congress in a letter from Congressman Needham, just received by the Chamber of Commerce here. The letter says in part:

"As you have read by the dispatches, the movement to put lemons on the free list failed so far as this session of Congress is concerned. However, in my opinion the matter will be renewed at the next session. The veto message of the President, which clearly announced his purpose not to approve any tariff bills until a report has been received from the Tariff Board, ought to be exceedingly gratifying to California generally. The action of the President in this regard means that our industries will have an opportunity to be heard before the duties upon the foreign competing articles are reduced or removed.

"When the lemon amendment was finally disposed of, I made a speech in the House which goes somewhat fully into the lemon controversy, and I shall endeavor to remember to send you a copy."

DO NOT FORGET  
If it's filing cabinets, cabinet supplies, transfer cases, guides, folders, indexes or anything else in that line, that the Fresno Republican is the place to get them.

## BANK HEADS WILL BE RAILROAD DIRECTORS

Acceptances Received From  
Palmtag and Hawkins of  
Hollister.

Telephone messages received here yesterday at the offices of the Fresno, Coalinga and Monterey railroad, announced that William P. Palmtag, president of the First National bank of Hollister, and T. M. Hawkins, president of the Bank of Hollister, have both agreed to serve as directors of the company. These are the two men the present directors hoped to secure to represent that section, and their names were recently announced as among those who would possibly occupy places on the directorate. They make a total of five bank presidents in all, who have been secured for the directorate from Monterey, Pacific Grove, Hollister and Salinas.

## SURPRISE IS GIVEN PAIR OF NEWLYWEDS

An enjoyable surprise party was given Mr. and Mrs. John Tague last night at the Fresno winery in honor of their recent marriage. Supper was served at a late hour. Games were played during the evening. Those present were Mr. and Mrs. John Tague, Miss Clara Rowland, Miss Helen Ahinger, Miss Ella Wilcox, Miss Mary Lyons, Miss Mary Koerner, Miss Elmore Koerner, Miss Orinda Koerner, Miss Rosamund Burr, Miss Harriett Compton, Miss Belle Koerner, Miss Goldmeary, Mrs. Margaret Farnsworth, Clifford Keiser, W. H. Benneker, Lee Cleeberger, Wilson Compton, Sr., Wilson Compton, Jr., and Mr. and Mrs. J. C. Griffin.

UNIVERSITY HONORED.  
CHRISTIANIA, Sept. 6.—King Haakon and Queen Maud took part today in the celebration of the centenary of the founding of the University of Christiania. Chancellor Brøgger of the University who presided at the fête, advocated the establishment of an international university to be subsidized by all nations.

## CARRIER PIGEON ON WAY TO OKLAHOMA

WASHINGTON, Sept. 6.—A stranger with a card from Oklahoma fluttered into the state, war and navy buildings by way of the chimney. It was a carrier pigeon with a band marked "Oklahoma," about its leg. The bird was nearly exhausted from a long flight. The watchman fed the bird and it was soon again on the wing.

## Why Calwa Will Be A Pleasant Place To Live

EVERY effort has been made to make Calwa a pleasant place to live. It is naturally a pleasant place. It is away from Fresno, out where the residents get all the breezes in the summer time. It is close enough to Fresno so that the people who live in Calwa can come to Fresno to trade. It is only two miles and a half and there are numbers of trains every day. The round trip can be made at any time of the day, almost, as there are two main line railroads.

Besides these things, a great deal of money and time and work has been spent in making improvements that are to be free to the purchasers of lots in Calwa. These improvements are intended to make expenses lighter to the inhabitants of this town.

Among the improvements that have been made are the graded streets. These will mean a great deal in comfort to the people who will live in Calwa. There will be no dust in the summer time and there will be no mud in the winter. These streets have been curbed too, in addition to the other work.

Soon the work of making concrete sidewalks will commence. All the lots will have concrete sidewalks in front of them. Water has been piped to the rear of every lot. There will be no delay when it is time to build in getting water and other improvements. They will already be there.

Curbs  
Graded Streets  
Sidewalks To Be  
Laid  
Only 2 1/2 Miles  
From Fresno

The Town That Will  
..GROW..  
Rapidly

School House  
Reading Room  
Water Piped  
To Every Lot  
Only 10 Minutes  
From Fresno

THERE is a great future in store for Calwa. It has everything that is needed to make a town grow. The intention is to make it a manufacturing center. It has a location that is unequalled. The Santa Fe railroad chose it from among many as the place to build their shops. The building of these shops will commence in a short time. At present a large force of men is busily engaged in doing the necessary grading.

When this is done and the switches and sidings are all installed, the work of building the round houses is completed, and the other work all finished, the roundhouses in Fresno will be moved to Calwa. All the men now employed here will be taken to Calwa. The trainmen will make Calwa their home, too. All of this means a great population for Calwa all at once.

COME to the office and ask about Calwa. Ask to be taken out to see these desirable lots. Now is the time to investigate. Don't wait till the best lots are all taken.

Are You  
Watching  
Calwa?

WITH the opportunities that exist at Calwa within your reach, are you going to neglect to take them? When these lines of business are established they will be established on the business lots. The owners of these lots will be in a position to enter into a profitable business for themselves. Or if they do not wish to do that they will easily be able to rent their lots or lease them. Or they can sell at a substantial advance. There are lots of ways to make money.

The buyers of residence lots will have nearly as many chances. When other factories are built, and even before that there will be a demand for these residence lots. The owners can sell at an advance or houses can be built to rent. There is bound to be a demand for these lots for the reason that when these factories are built, there will be a great population in Calwa, and of course many houses will be built.

## TASANT THE DRINKS

Henry Ewig and Thomas Biddle, owners of a small motor launch which they keep anchored under Central bridge in the Harbor river, were tinkering with the engine in the boat, when they were both thrown from their feet when the boat was rocked by a vicious bump. Ewig looked over the side and saw a large fish and picking up a bucket, he plunged it under the gills of the fish. They were dragged quite a distance before the ten foot skiff was played out and hauled from the water. It was immediately bought by a fish dealer and put up in his window as an advertisement. - New York Evening Sun.

# FASHIONS-FANCIES-HOUSEHOLD

## Fall Suits and Their Prominent Features

The "Hoople" Sleeves, Reminiscent of the Early Sixties, Are Now In Vogue.

THE question uppermost in the mind of a woman ordering her fall suit is apt to be this: "What kind of skirts are going to be worn?" Most decidedly, my dear madam, not the hobble affair of the past few seasons, which has made even the best

side to a depth of ten inches. Over this is draped a frippled-bordered tunic, the jacket is of rather loose fit, with the back gathered into a low waist line. The large sleeves are of draped white satin, and from one side falls a broad platted jabot. The costume is carried out in one of the new broadest wool materials that have all the bustle of silk.

Fancy velvets that look like corduroy are to be popular fabrics for suits. And the smart little velvet suit illustrated is of black velvet with white trimmings. The deep collar and cuffs are of white satin cloth, and the costume is made more attractive with white cord trimmings, beading done in black and white, and black braid and buttons.

Very striking is the three piece costume designed by Mme. Paquin and worn recently at the Longchamps race course by this august fashion author-

shirt, measuring probably one and one-quarter yards in width, is formed of white broadcloth, with ornamental straps of navy blue cloth placed at intervals to form one and one-half inch stripes. Over this is posed the tunic, which is about two inches short of full length. This opens at the left side to a height of twenty inches to reveal a petticoat in the striped effect. On one corner of the tunic is a large motif in soutache, together with ball buttons in white pearl placed in double lines along the edge.

One of the greatest fashion innovations of the season is the crinoline or "hoop" sleeve. This sleeve, designed for waists, is distended at the elbow with a little hoop of wire or whalebone. The sleeve is built out at the elbow to give a pronounced balloon effect. The hoople suit is made of gathered net and is really an undersleeve of the finest lawn cut in the bell shape, with the sleeve of the

It Is Strictly Tailored

SUIT OF MIXED WORSTED.

If this mannish looking tailored suit is to be taken as a harbinger of winter styles there is every reason to believe that femininity will revel in plain tailor made. This suit has particularly graceful lines and is built of a mixed worsted in shades of brown.

SMART VELVET SUIT.

BERNARD COSTUME IN TUNIC EFFECT.

PAQUIN MODEL IN BROADCLOTH.

gowned woman look like a third rate chorus girl. No; this hobble goblin of a skirt is really dead to the modern world after a pathetic clinging to sartorial existence. Last summer its death knell was sounded, but what happened? You all know that this caricature of a thing only took on a stronger lease of life. But, together with the harem jupe, it has passed to limbo. Even Pofrei, who invented the last named travesty, admits it to be a complete failure, and Mme. Paquin, the originator of the hobble, no longer makes this style of skirt. The new

better to curtail expenses on some other item of dress rather than on shoes. There is a perfect furor for fringe trimmings on tailor made suits, and for the dresier type there is Egyptian braiding done in the colorings and designs seen on the garments of the pharaohs.

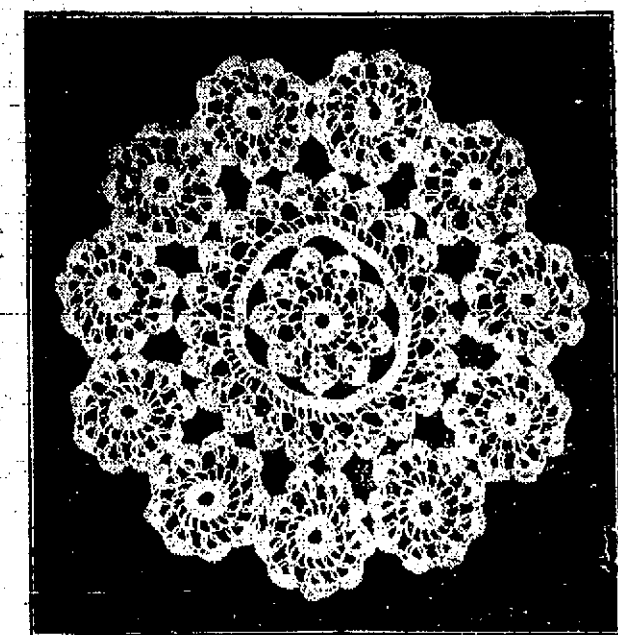

The new coats will be, generally speaking, of three-quarter length, but the smartest thing of the fall is to be found in the Egyptian coats. They are so named because the model is very short and straight and apparently

all the waists are still high, quite as high, in fact, as they ever were, and there is a fancy for cut up effects reminiscent of director's styles, the opening filled in with a panel. The front breadth of some models has an inverted box plait stitched to within a foot of the skirt depth. Tunic effects still hold good, and a charming costume with this feature is pictured in one of the cuts. This Bernard model shows the tunic falling over a very narrow underskirt. The foundation skirt measures about forty-eight inches at the hem and is slashed at the left

ity. The skirt wraps the figure about as closely as possible, which does not bespeak increasing width in skirts. The narrow petticoat of the under-

waist material falling over it. Those who can remember as far back as the sixties will recall this revived sleeve. CATHERINE TALBOT.

## Pretty Crochet Wheel Doily

SIMPLE DESIGN FOR DOILY.

PLATE doilies of crochet lace are used instead of embroidered ones since this lace has become so popular. Most of the doily patterns are so simple that any one who can crochet over a little can make them. The wheel pattern illustrated here consists merely of the repetition of the same design. Linen thread or crochet cotton of a rather coarse strand should be used.

First make a chain of twelve stitches and join it to form a ring. Then on the ring work thirty-six trebles. For the second row make one treble between each two trebles of the preceding row with a chain of two between each treble. For the third row turn, crochet four treble into every third hole of the preceding row with four chain between each of the four trebles. For the fourth

row crochet four trebles in the center of the group of four trebles of the previous row and connect by chains of four. For the fifth row crochet twelve trebles in the center of the group of four trebles, make a chain of two and draw a stitch up under the chains of four in the two preceding rows, chain two more and make a group of twelve trebles, and so on to the end of the row. This will complete one of the wheels. Twelve of these wheels are required for the doily. For the center of the doily connect each of the wheels with a chain of twelve. For the next row crochet eighteen trebles on each of these chains. For the next row turn and make one treble and two chain between each of the two trebles of the preceding row. The three other rows are done exactly like the third, fourth and fifth row of the wheel. The wheels may be fitted for the outside row into position and joined into place with a needle and thread.

### STYLES IN WAIST SLEEVES.

The set in sleeve will vie in popularity this fall with the peasant or kimono sleeve, and there is also a compromise manche. This affair has a kimono top with a set on lower portion in regulation cut. The puff beginning just below the elbow and ending in a straight line cuff either at the wrist or in three-quarter length set on in a similar fashion is another new effect. Full length sleeves are seen on the new fall tailored waists, but the dressy and semidressy models have sleeves in three-quarter measurement.

### FROZEN WATERMELON.

Frozen watermelon is a very refreshing dessert. Cut a melon into long strips. Remove the seeds, cut off the green rind and cut the edible pink part into two inch squares. Put them into a freezer and pack in ice and salt. Let them stand for an hour, as they ought not to be too stiff. When ready to serve heap the melon high in a glass dish. A light sprinkling of sugar and champagne or some attractive wine may be added before freezing.

## Of Great Convenience

IN this life it is the little things that count the most, after all. The search for collar buttons and studs has caused more annoyance than the loss of a dividend on a pet bond in proportion.

COLLAR BOX WITH DRAWERS FOR BUTTONS AND STUDS.

tion to the cause thereof. But there's no excuse for loss of temper—that is, if one has the bump of order even normally developed. If a collar box like the receptacle illustrated is included among one's possessions. In this handy box are partitions for collars and cuffs, cuff and collar buttons and stickpins—no end of a comfort for the business girl or the household Martha who is troubled about many things besides her personal appearance.

## Reliable Tomato Recipes

### FOR TOMATO PUREE.

IN making a tomato puree it will not curdle easily if the tomato is poured into the milk. Do it slowly and pour just a little at a time.

### BAKED TOMATOES.

Cut the tomatoes in half and remove a little of the pulp. Fill them with rice and a little chopped parsley and place them on a baking sheet in a slow oven until the rice is sufficiently cooked. It should be crisp and not tender. Serve very hot.

### LAMB CUTLETS IN TOMATO JELLY.

Boil or braise the best end of a neck of lamb and when cold trim into cutlets. Mix together equal parts of tomato sauce and apple jelly and mask the cutlets with this when almost cold and let them set. Serve the cutlets round a macedoine of vegetables with ronnaisaise sauce and garnish with cut up apple and slices of tomato.

### TOMATO SAUCE.

Put two large tomatoes or three or four small ones in a saucepan, adding a little finely chopped onion and parsley and salt and pepper to taste. Let them cook until they are quite tender and do not use any water with them. When they are cooked pass them through a sieve and add a little butter and about a tablespoonful or more of cream, according to taste. Boil over a very low fire till the mixture is almost thick. This sauce is equally good cold and may be used with fish, cutlets or cold meats as preferred. It also forms an excellent accompaniment to poached eggs with the addition of a little grated cheese.

## An Autumn Beauty Hint

TAN and freckles are the portion of the summer girl. Of course regular outdoor exercise is entirely essential for the making or keeping of a good complexion, but the face must be carefully protected by special treatment beforehand. To wash the face just before going out into the open air is a sure way to ruin the complexion. If the face must be washed at such a time a soothing lotion should be substituted for water. Pure cream is very suitable for the purpose. It may be well rubbed into the skin, using the finger tips and being careful not to drag or stretch the skin during the process. It should be left in for a few moments, then gently wiped off with a soft handkerchief. The fatty nature of the cream acts beneficially on the skin, nourishing it and imparting a sensation of smoothness to its surface.

Of course many women prefer to use a special massage or toilet cream for the purpose, but many excellent preparations are now obtainable compounded with the greatest care by toilet specialists and so pleasant and beneficial to use that even the most fastidious woman may select one to suit her individual taste. A good deal of the cream sinks into the skin, but the rest must be removed with care. A very fine layer remains on the skin invisible to the eye, but sufficient to afford protection.

After applying cream in this manner it is wise to dust a little powder lightly over the face. The best method of using powder is to place a little on a fine camels hair brush and to apply that to the face. By this means skin, nourishing it and imparting a sensation of smoothness to its surface.

DAINTY CIGARETTE AND CARD CASE OF WHITE LEATHER.

FOR milady's reticule there are dainty cardcases and purses of white ptm seal leather mounted with gold or silver and lined with lavender or rose colored silk. To match these belongings there are little cases for perfumed oriental cigarettes. The monogram on the gold band of the case is repeated in miniature on each gold tipped cigarette.

# SNAPPED BY THE NEWSMAN'S CAMERA

CANADA CALLS NEW PARLIAMENT TO TAKE UP QUESTION OF RECIPROCITY, WHICH BOTH HOUSES OF UNITED STATES CONGRESS HAVE ALREADY APPROVED

By GEORGE WAUGH ARNOLD.  
**W**HILE Washington set the seal of its approval on a reciprocity pact with Canada, the parliament at Ottawa most decidedly did not, but put the responsibility up to the new parliament, which will convene in October under the new governor-general, the Duke of Connaught. The government has put the matter squarely up to the people and hopes that through the results of the election next month the ratification of the reciprocity agreement will be rushed to a triumphant finish as the first matter of business.

The opposition thinks otherwise, but as it will have to gain twenty-five more members in the house than it has now its chances can hardly be called brilliant.

Never before has the president of the United States loomed so large in Canadian politics. His recent speeches on reciprocity are being spread broadcast throughout the country and are quoted more often than the utterances of Sir Wilfrid Laurier or of Finance Minister Fielding.

The enemies of the bill have been calling up the bogey of annexation, but the Canadian people appear simply not to believe in it. If they did fear a separation from old England or an absorption by the United States the treaty would have no chance.

Photos copyright by American Press Association.  
At top, left to right, Sir Wilfrid Laurier, Robert Laird Borden, Secretary Philander C. Knox, parliament buildings at Ottawa, and W. L. McKenzie King, minister of labor. At bottom, President Taft and Hon. William S. Fielding.

The tendency of the opposition, after forcing an election on reciprocity, to depart from discussion of that issue and get the people to thinking of other things which it holds are discreditable to the government is especially noticeable in the west. Much is being made there of the fact that the prairie provinces will not be represented fully in parliament during the next four years because the government brought on the election before completion of the census now being taken. The subsequent distribution, based upon the increased population, would have given the west twenty additional members. Failure to take over the terminal grain elevators for government management and to declare that the Hudson Bay railway when completed will not be let to a private railway corporation for operation are other factors in the west's opposition.

In Quebec, which is largely French, opponents of the government are again attacking bitterly the three unpopular naval policy of the Laurier regime, to draw attention from reciprocity. The situation and the long debate in parliament, however, have so focused attention upon reciprocity that it is doubtful if it can long be diverted. Reports are said to indicate that fishermen, farmers, cattle raisers and lumbermen are taking great interest in the subject and that they pretty well understand it.

The government alleges that the conservatives are relying for success on large financial support expected from manufacturers in Canada, tariff reformers in England and anti-reciprocity "big game" in the United States. Apparently the government will not lack necessary funds. They are said to be certain of the support of the thousands of grain growers in western Canada, who are well organized. The organization recently decided not to put up candidates of its own, thus avoiding three-cornered fights. This is accepted as indicating that the members of the society will be advised by their leaders to support the Liberal candidates.

The United States senate and the house did some exceptionally rapid work in arguing and passing the reciprocity agreement. The signed statute took only twenty-nine days, although sixty ingenious amendments had to be made, but gently laid away by an understanding with the president. The house in an extra session took only seventeen days.

The value of the dutiable articles on which Canada may reduce rates aggregate \$25,570,000 a year at present.

The value of the dutiable articles on which the United States reduces rates aggregates \$7,521,000 a year at present. Told in Dollars and Cents.

The value of the articles imported from the United States into Canada affected by the reciprocity compact totals \$1,523,000.

The value of the articles imported from Canada into the United States affected by the agreement totals \$47,338,000.

The aggregate amount of the duties remitted by Canada is \$2,580,000. The value of dutiable articles placed on the free list is \$21,958,000.

The aggregate amount of duties remitted by the United States, \$1,850,000. The total value of dutiable articles placed on the free list, \$38,811,000.

All these cold hard facts are being placarded by the government all over the Dominion, and a flock of what we appropriately call spellbinders is going out among the Canadian farmers between now and the election on Sept. 21. Under the direction of Sir Wilfrid Laurier and his brilliant young minister of labor, W. L. McKenzie King, they will try to make the farmer see clearly the benefits of reciprocity.

But the Opposition, headed by Robert Laird Borden, will work just as hard along the same up to date. They will paint gloomy pictures of the probability of the absolute shipwreck of the agricultural interests of the Dominion of Canada.

Laurier's Final Fight.

Sir Wilfrid Laurier is arming for his last fray. He had announced that he would retire from politics at the end of this parliament just dissolved, but the reciprocity business has changed all that. No hint of retirement now. He has fought all his life for better trade relations with the United States, and the goal is in sight. He will devote himself principally to assuring a full contingent of supporters from the province of Quebec, home of his fellow French Canadians.

## STEEL TRUST GIANT OF ALL THE WORLD; EMPIRES MUST BOW AT ITS COMMAND

**W**HAT are emperors and kings and queens good for now? They may give some few more funny open air pageants like the recent coronation event in London, but at all of them the steel trust giant will look as the aged village lord at the circus parade and say, "Boo! there ain't no such animals!"

There is much talk of an international steel combination which would have more power and prestige than the average mind can grasp, but the United States Steel corporation is alone enough for the present writing.

It has a gross yearly revenue of \$2,000,000,000 as against these revenues of the six great nations:

German empire	\$1,600,000,000
Russian empire	1,450,000,000
France	1,140,000,000
United States	715,000,000
Great Britain	700,000,000
Austria-Hungary	630,000,000

And Chairman Elbert H. Gary can, by the quiet order to his stenographer,

affect the wages of more men than could the ruler of any community.

To its stockholders in 1910 the American trust distributed nearly \$117,000,000, which is almost the revenue of Brazil with its coffee and rubber wealth.

In all the world there is manufactured each year about 52,000,000 tons of steel and 51,000,000 tons of pig iron. Of this wonderful amount the members of the steel corporation make

back seat. They can neither make war nor peace as long as we are united and control iron and steel. And in dealing with the association they can only buy at one price."

This utterance of Mr. Gary at Brussels proves at least that he is a man of imagination—even something of a poet. According to his ideas an international steel trust will be able to realize Fenimore's dream of "a parliament of men, a federation of the world," with the steel interests playing the benevolent role of dictator. While no doubt it would be an excellent thing to have war abolished, yet there are worse things than war. Slavery, for instance, and a world reduced to a condition of vassalage to the directors of an international steel trust would in the minds of many persons have about that significance.

Strangely, the people have in some way imbibed the idea that trusts are not benevolent organizations except where their own interests are concerned, and in spite of its expressed philanthropic intentions it is to be feared that the steel trust may encounter a chilling skepticism. While steel is no doubt an important feature of warfare, there are persons unkind enough to suggest that warriors to operate the steel are more important, and after he has successfully cornered the world's steel products Mr. Gary may find it necessary to go out and corner the world's fighters before he will be justified in putting on the toga and laurel wreath of Caesar.

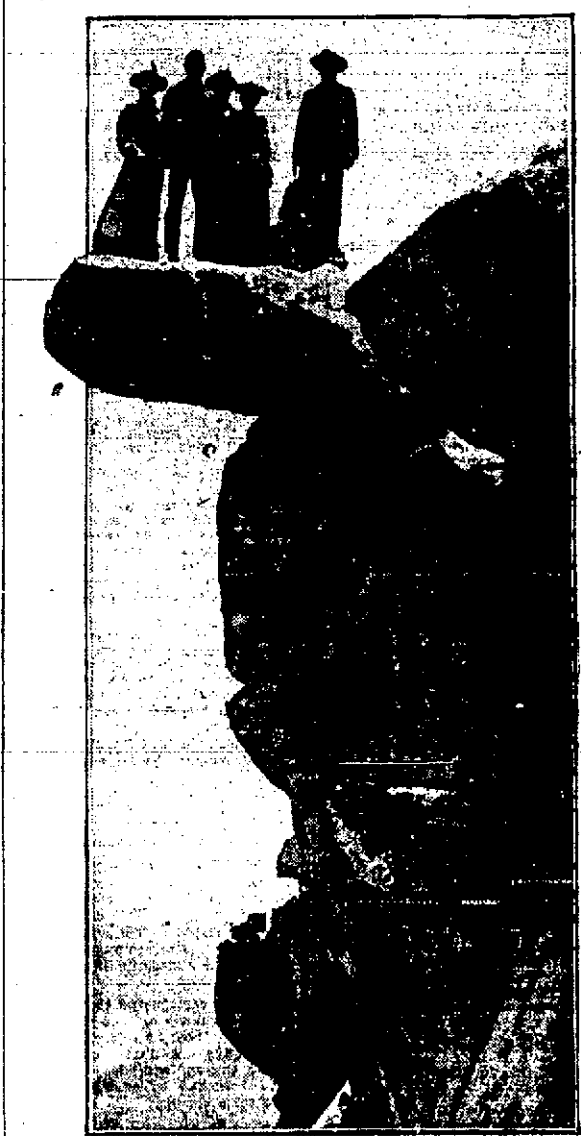

However, it is a beautiful dream, but were it not for the pernicious activities of the Stanley committee at Washington it might seem a trifle more real. Recent disclosures in regard to the unpoetical and thoroughly practical manner in which the steel trust conducts its personal affairs seems to have a tendency to ruffle the placidity of the public at large, the public on whose complacence Mr. Gary and his fellow "war lords" must depend to a humiliating degree in the maintaining of their steel empire.

Moreover, foreign governments do not seem to have the same benign indifference to the operation of "big business interests" as blossoms the trust builder in America. An instance of this was the fate of the polish people in Germany. One can imagine the one only war lord of Germany listening meekly while Mr. Gary or any of his associates dictated terms in regard to the Moroccan situation or withheld from William on the warpath a few new cruisers or trusty Gatling guns for reducing the enemies of Germany to submission. It would be wise for the "masters of the world" to stop carefully over the borders of the fatherland and conduct their negotiations with the Kaiser by wireless or long-distance telephone. The same might be said of the czar, and while shorn of many of their prerogatives the crowned heads of Europe are not so altogether without teeth and claws as republican America fondly believes them to be.

So that the menace from an international steel trust seems to be more largely to the mental equilibrium of its projectors than to the peace or happiness of the world so far as it is concerned.

ARNOLD W. GARNETT.

## "SEE AMERICA FIRST" TOURISTS FIND GLACIER POINT AS INSPIRING AS ANYTHING IN EUROPE

By Louise Wood & Underwood.  
**O**NE OF THE GREATEST VIEWS ON THIS TERRESTRIAL SPHERE.

**D**ESPITE the attractions of the coronation and other things in Europe many tourists this summer, with the "See America First" slogan in mind, are visiting points of interest in their own land. One of these places of perennial

enthusiasm in the soul of the tourist is achieved only when he stands upon Glacier point.

The view from Glacier point is one of the most inspiring in the world. The projecting rock upon which the visitor stands to view the landscape is exactly 3,234 feet above the floor of the valley and more than 7,000 feet above sea level. If you should have an attack of vertigo or "buck-ager" while standing upon this flat rock and fall off you would touch nothing but air for more than 3,000 feet. Then you would hit the mountain debris on the valley floor, but you never would know it.

Thousands of tourists who visit the valley are too timid to venture out upon Glacier point. It is a well known fact that many persons cannot look from a dizzy height without becoming dizzy themselves. But every year many self possessed visitors, women as well as men, make the trip up the trail and walk out on the overhanging rock. The view is well worth the effort. A man from the east who recently visited the Yosemite valley and made his way up to Glacier point thus describes his sensations:

"Lie flat on the rocks and gaze into the depths and you will feel as though the universe is sinking away from you into limitless space. The great trees on the floor of the valley appear to be bunches of moss or mere shrubs. The men and the horses are surely flies crawling slowly along the meadows, and the river is but a tiny ribbon of light threading its way in and out and finally disappearing into the distant barrens."

"Almost the entire northern rim of the valley lies before you and on the same level. There is a background of still higher mountains. Across yonder is Eagle rock, and near by it are the Yosemite falls, glistening in the full light of a vivid midday sun. Across the chasm are the Royal arches, which only a few hours ago were huge holes in the face of the rocks, but which are now mere outlines, mere pencil scratches on the great natural slate of rock. Farther up the canyon to the right is a tiny splash of light. It proves to be Mirror lake, now shorn of its enchantments by majesty itself. Its neglected waters lie scarcely discernible, away below the fractured face of the south dome, whose resplendent helmet is towering above you."

"From Glacier point the sunsets and sunsets are among the most impressive to be had anywhere. To see, as the sun either sinks behind the western mountains or as it creeps in the early morn up the eastern facade of the rocks, the play of lights and shadows, of tints and colors on the canyon's mossy depths, on the greater of waterfalls, to see the many hues of lights as they steal along and up the faces of the rocks and then scatter themselves over the floor of the valley is a picture which the richest cannot buy, but which the poorest and humblest may enjoy."

J. BRUCE THOMPSON.

## STEPS IN FRONT OF ONRUSHING S. P. TRAIN

F. N. Smith of San Francisco Is Ground to Pieces Beneath Wheels.

Hobo Was Eye Witness to Gruesome Suicide; Coroner Notified.

Deliberately stepping in front of Southern Pacific train No. 10, due in Fresno at 10:40, F. N. Smith of 3025 Fulton street, San Francisco, last night was ground to pieces under the massive wheels of the engine. The gruesome suicide took place at the Southern Pacific railroad crossing on Belmont avenue.

A hobo, who was making his bed behind a billboard near the railroad crossing, saw Smith come down to the tracks and walk back and forth until then for the train to pass. According to the story the hobo told to the railroad officials, Smith acted in a queer manner and for that reason he watched him very closely. "The hobo knew that a passenger train was due in a few minutes and he did not know but what Smith was going to try and hold up the train or wreck it."

As the train approached Smith stepped upon the tracks. His body was ground to pieces beneath the wheels. The train was immediately stopped and the body was removed from under the wheels. Parts of the body were found along the track and after the engine arrived in Fresno at the depot the trainmen found pieces of the body on the tender of the engine.

Coroner Bean was notified of the suicide but through a misunderstanding he did not leave immediately for the scene thinking that the body had been brought to Fresno in the baggage car. At midnight he left for the body and had not returned at the time of going to press. It is presumed that Coroner Bean will bring the hobo to Fresno, who informed the railroad officials of what he had seen.

From a description blank found in the pockets of the dead man the identification was made. It was also stated in the book that in case of serious accident to notify W. C. Smith, 61 Company, Coast Artillery, Fort Baker, California. According to the description blank Smith weighed 250 pounds, was 5 feet and 11 inches tall.

It is not known how long Smith had been in Fresno. The inquest will be held some time today if Coroner Bean is able to locate the train crew. Conductor J. E. Jacobs was in charge of train No. 10.

Patrolman Knight and Wickett went to the railroad crossing with the coroner.

## GREEK LABORERS COMING HERE DAILY TO HELP HARVEST GRAPES

Forty-five Arrived Yesterday; More Coming; 750 Working.

Farmers Are Satisfied With the Laborers; Sioris Has New Plan.

Forty-five Greek laborers arrived here yesterday and will go to work today in the vineyards. Each train is unloading Greeks at the local depot and the men are being put to work as fast as they arrive. In all about 750 are now assisting in the annual harvest of the grape crop of Fresno county. Before the picking season closes it is estimated that 1200 Greeks will be here.

H. Sioris, state organizer of the Migratory League, who is in Fresno in the interests of the Greeks, stated yesterday that there will be daily arrivals of the laborers until the closing of the grape picking season. Sioris has a new plan for insuring the annual harvest against a scarcity of men.

His idea is to have the farmers employ two, three or four experienced Greek laborers the year round if the winter work demands the employment of this number. Sioris says the Greeks who remain on the ranches in the winter and spring will be instrumental in bringing the grape pickers back again the following season.

T. C. Seaward, vice president of the State Federation of Labor, agrees with Sioris that the importation of Greek laborers thus solves the problem of furnishing the farmers with laborers. "When Sioris arrived here a month ago to organize a branch of the state Migratory League, he found a scarcity of labor on the vineyards," said Seaward. "The farmers were worrying because they feared the grapes would remain unpicked on the vines."

"Sioris immediately set about to import Greek laborers. A week ago the men began to arrive and today there will be nearly 800 at work on different vineyards in the county. More are arriving daily and Sioris estimates the number will reach 1200 within ten days or two weeks."

Yesterday the organizer took a auto trip into the country and upon his return stated that the farmers who are now employing Greeks are wearing broad smiles and are proving all that was claimed for them. One experienced Greek picked eighty-five trays of muscats in two-thirds of a day. "The men have established camps and are doing their own cooking. It seems to be perfectly satisfactory with little or no complaint. No complaints have been lodged with Organizer Sioris of any dissatisfaction among the men."

"So far the new laborers are proving all that was claimed for them. One experienced Greek picked eighty-five trays of muscats in two-thirds of a day. The men have established camps and are doing their own cooking. It seems to be perfectly satisfactory with little or no complaint. No complaints have been lodged with Organizer Sioris of any dissatisfaction among the men."

## PEACH CROP ONLY 8,000 TONS IS ESTIMATE

Beekhuis Says Buyers Not Able to Fill Because Goods Short.

Raisin Shortage Is Seen to Be Greater With Goods Drying.

The peach crop of California for 1911 will not be over 8,000 tons this year, is the estimation of North Ontario Packing Company officials, according to statement given out yesterday by Manager Beekhuis of the Hanford house of this concern. He further declared that some of the firms in the business are short, and are making an effort to hammer prices to such a level that they can cover with good grace. This level is believed to be between 8 and 9 cents.

"Our house," Beekhuis stated, "has purchased only two-thirds of the tonnage that it bought and handled last year. The impression that this company is trying to corner peaches on speculation is erroneous. We have had six buyers out, and they have been able to scrape together but two-thirds of a run. I am in doubt if all of the other third can be filled in. We have enough goods for September deliveries, and have bought for October delivery at 10 cents."

Our investigations have led us to believe that the crop in California will not be over 8,000 tons this year. The San Joaquin Valley will furnish 5,000 tons of this, and all but 1,000 tons at a long estimate have been bought up."

He declares the heavy peach markets of the East, Chicago and New York, have not been met yet, and that practically all of the goods so far sold will go out to the South and Middle West.

RAISINS DRY LIGHT.  
With every day of the raisin harvest, it is becoming more apparent that the crop has been long, and this low level in the raisin business who have predicted that the crop will be found very much shorter than expected, when on the trays, are having their statements borne out. This information is the gist of observations on the situation made by some of the largest and most reliable of the raisin growers, yesterday.

Drying is going ahead rather slowly, it is said. However, the result of the first few days of it has been to very materially strengthen feeling among representative growers. A leading cause of this is the apparent increase in the estimated shortage of the crop. Another is the fact that everyone seems now to believe that usual facilities for playing one packer against another to secure low bids East are removed by the peculiarities of the western market.

Usually after the drying is on, and many of the growers ready to deliver, there is an interval of two or three weeks during which the eastern trade is not forced to buy to fill Thanksgiving requirements. These two or three weeks are utilized, in an average year, in securing one and another of the packers, and getting the goods where lowest quotations can be picked up. And the result is invariably bad on the sweet box market, with the nervousness of growers increased by the fact that they are ready to shoot their raisins into the packing houses. This year, however, the ripening of the crop is so late that the jobbers will not have this leeway in time, and must buy for the holiday trade during the time that the curing of the crop is in full swing.

## POWER COMPANY PLANS BIG WORK NEXT YEAR IN HIGH SIERRAS

Is Building Almost Perfect Road Into Big Creek Basin.

To Have Own Highway From Pollasky; 400 Men Building Road.

A. C. Balch and A. G. Wilson of the San Joaquin Light and Power Company returned yesterday from Big Creek where they inspected the construction work being done there. The trip was made by automobile from this city, Mr. Balch coming from Los Angeles to meet Mr. Wilson here.

The purpose of the trip, according to Mr. Balch was to inspect the work on the Big Creek road which is an important factor in the construction of three large dams in Big Creek basin. About four hundred men are building a road from Pollasky station above Big Sandy to the mouth of the immense basin beyond Shaver.

The road will be a great improvement as it overcomes the steep grade from Pollasky station to Pine Ridge. It is not placed on the road will be a great improvement as it overcomes the steep grade from Pollasky station to Pine Ridge. It is not placed on the road will be a great improvement as it overcomes the steep grade from Pollasky station to Pine Ridge.

The distance will not be lengthened any and the grade will be almost perfect. Insuring faster time in transporting them and material from Pollasky to Big Creek basin. All supplies, machinery and men will go to Pollasky by train. From that point on the San Joaquin river to the power plant site in Big Creek basin, the company will have its own road. Construction work is now progressing rapidly and a large crew of men is pushing the road ahead along the mountain sides facing the south fork of the San Joaquin.

It is hoped to have the road completed before the early winter storms arrive in the high Sierras. When spring opens the power company will rush men and machinery into the Big Creek basin and the construction of three large dams will begin. The road will be put into such shape that automobiles can cover the distance between Pollasky station and Big Creek late this fall. It is predicted that the road will be the best in the mountains of Fresno county.

Mr. Balch stated last night that the construction work to be done at Big Creek next year is just four times as large as that recently completed at Crane Valley, where a huge dam and power house were built. At Big Creek there will be three separate dams, any one of which is to be larger than the gigantic basin at Crane Valley.

The power plant at Big Creek will also be larger than the one at Crane Valley. With the latest and biggest plant in operation the company hopes to not only supply the whole valley with "juice" but to take it to any of the larger cities in the state. Mr. Balch will remain in Fresno today, returning to his home at Los Angeles tomorrow.

## RIVERBANK YARDS WILL BE GRADED AHEAD OF CALWA JUNCTION

Laying of Tracks at Northern Terminal Will Start Next Week.

Calwa Grading Task Will Occupy Five or Six More Weeks.

Grading work in the Santa Fe yards at Riverbank, 100 miles north of Fresno, will be completed about the middle of next week and laying of rails and ties will commence immediately. Construction work on the Santa Fe yards will begin about the 20th of this month. The contract for the erection of a huge redwood water tank at Riverbank has been let to the Redwood Manufacturing Company.

The tank will have a capacity of 50,000 gallons and will be erected on a tower eighty-four feet in height. The contract for digging and cementing a pump pit, fifty feet deep and ten feet square, has been let to W. R. Crawford, a Riverbank contractor. In this pump pit the electric motors and pumps for the water work will be located. Work on the tank and pit is now being done and it is hoped to have the plant in operation by the first of next week.

At Calwa grading work in the yards is progressing rapidly but the task is a long one. It was hoped by Santa Fe officials to have grading work at Calwa completed about the same time as that being done at Riverbank, the terminal point of the railroad company.

However, grading at Calwa will not be finished for five or six weeks. Ties and rails for the Calwa yards are in storage here and at the junction. The laying of tracks will not start before October 15th.

## SAY WIFE DESERTER TRIED INTIMIDATION

Wife and Daughter of William Rice Charge Him With Disturbing Peace.

William Rice, who on the 11th of the month will be given a preliminary examination for failing to provide for his wife and children with food, clothing and shelter, will have to appear before city justice Graham this morning at 9 o'clock and show cause why his bail should not be canceled. William Hurvey, Sr., yesterday requested the court to issue a warrant for the arrest of defendant on a charge of disturbing the peace.

Mrs. Rice and daughter both informed the court that Rice had visited their home Tuesday night and had attempted to intimidate them because they had given evidence against him in the justice court that day. The city justice did not issue the warrant, but Rice will have to appear in court this morning.

## PROVIDE FOR WILD WEST SHOW AT THE FAIR

Directors Name Committee to Make Contracts With Riders.

Special Policing of Fair Provided for; New Exhibits Enter.

Wild West features, special detectives and arrangements for more barn races were among the things that came before the directors of the Fresno County Agricultural Fair Association at their meeting yesterday. All are to be secured for the fair. Further, it was reported that a number of important new exhibits from the outside have been secured. In fact, things began to have the look of a wind-up yesterday—final preparations before the big event is sprung for the benefit of the public.

Secretary Elshart reported that a promise has been secured from Merced county that its exhibit, which won first place at the state fair for purely agricultural displays, is to be brought here. Further, he will go to Portland in the near future with the intention of getting an elaborate citrus display entered from that place. His trip will also include Modesto and possibly other of the valley counties.

A committee composed of R. C. Fariss, L. C. Buchanan and J. E. Dickinson was named to arrange for the Wild West show, the specific form of the motion was that they were empowered to enter into a contract with "Happy Jack" and others, to put on this show. It is planned to make it the most exciting thing of its sort ever seen here, extending in scope from street parades with a trumpeter and the riders in their costumes, in the forenoon, to a wild horse race in the afternoon. Further, Jack has offered \$50 to anyone that can bring forward a horse he cannot ride, and it is announced a special effort is to be made to make Jack pay.

R. A. Powell and Secretary Elshart were empowered to place the restaurant and lunch counter spaces and those for soft drinks and ice cream, at the most convenient points for the public, rather than on locations that might possibly be desired by the buying concessions. It is being borne in mind at all times the preparations for this fair that the comfort and convenience of the public is to be considered before anything else.

## BAN ON CROOKS.

Crooks are to have a poor lot of picking at the Fresno fair. It was determined yesterday to secure the services of a special detective agency, that policed the state fair and the Chico fair this year, and many others, satisfactorily. This agency will furnish men to patrol the grounds and the main plain of the fair, who will circulate through the crowd in search of the light-fingered pickpocket, and the "wise guy" with the slick game, used to gull the innocent. It is believed the service that will be secured will insure absolutely the best of order throughout, and the news that the service has been secured will be a powerful deterrent for such of the light-fingered gentry as usually drift in about the time of a fair.

Frank Haven, an automobile man of this city, was named yesterday to take charge of the automobile show at the fair. The price of exhibit space was also arranged, and it was decided to extend the size of the space allotted to automobiles. A new exhibitor in this line was announced, Scott and McKee of Bakersfield, who will enter a truck and two touring cars.

The Howard Cattle Company, one of the largest exhibitors in the country, which showed two carloads of stock at the state fair, it was announced yesterday, will bring its cattle here for the fair. The securing of this entry alone, it is declared, would assure that this department will be a success.

## RAD WHITE QUILTS; SUCCESSOR NAMED

VISALIA, Sept. 6.—The resignation of Radford White as a nightwatchman was tendered to the city council last night. The board promptly accepted the resignation, several members commenting on the action. One member stated that it was to the "best interest of the city" to accept. Ernest R. McDonald was appointed to take White's place. The former peace officer is accused of manslaughter in connection with the death of Harry L. Parker, who died in the county jail office a week ago. Parker was struck twice on the head with a policeman's club in the hands of White. The deceased had been arrested by White on a charge of drunkenness.

## FALL COUGHS And Colds can be cured by Fresno Lung Tonic—only at Smith Bros.

Should be preserved and protected for their children until they reach the age of discretion!

Often weaknesses of the eye can be cured during the formative period of childhood by wearing glasses of proper nature and the eyes thus preserved for their grown up years.

How unjust to the child to neglect so important a matter.

We've had 15 years of experience in fitting children.

## A Big Display Of Fall Goods--More Coming

—Every day some more of the beautiful Fall goods arrive. Even now we have a great stock on hand. And the most beautiful patterns are shown. We are certain you will be more than pleased with the showing we make. Come in and see these suits now while the stock is new and before the best selections have been taken.

## Women's Autumn Suits

—How attractive they are, with their superb tailoring which is, perhaps the principal one of their many graces. Even our lowest-priced suits are so carefully tailored that their good lines and shapeliness are retained until the very last day of active service.

—Some are strictly tailored for practical wear, others are handsomely trimmed with braid, touches of velvet and fringe (two of the season's pronounced notes) and buttons. The coats are somewhat longer, regulation length being 28 and 30 inches; the skirts are a trifle fuller, made so usually by introducing side platts of knee length. Many of the skirts have a panel front and back, some of them being the graceful "loose panel."

—Materials are hard-twisted Serges, Broadcloths, Cheviots, wide-wale Diagonals, and various novelties. Leading colors are black, navy, violet and Coronation. Prices begin at \$15.00.

## Fall's New Top Coats For Women Have Arrived

—And such snug, comfortable creations they are, enveloping mchody from "head to heels!"  
—This—the first and advance presentation. Hundreds more will follow. The wraps are par excellence for autoing, sports, carriage riding and the pedestrian on the brightest or most inclement mid-winter day.  
—Two noteworthy and attractive new features:  
—Coats cut all in one piece.  
—Coats with set-in kimono sleeves.  
—Reversible, two-toned and double-faced effects.

In Vicuna-faced Cheviot and Soft "Wrap-up" Ulster Cloths.

—The materials imported direct from Scotland and the west of England and made after celebrated new foreign designs, but giving you the advantage of superior American tailoring. Prices \$18.75 to \$35.

## New School Hats Girls' School

—Roll French sailors, with silk top and velvet facing, \$2.25. A smart new style that misses will want as soon as they see how becoming is this new style.

## Dresses \$1.25

—Piquant and dainty ginghams, percales and Galateas in washable school dresses that are growing more in favor every year because of the more sanitary and hygienic results that obtain from repeated washings.

—The lot on sale is for girls 7 to 14 years, in assorted styles, varying in price from \$1.25 to \$2.00, all now at one price, \$1.25.

## Girls' Sweaters \$1.95

—Ready for school with a big line of high grade sweaters and aviation caps. Caps 50c to \$1.50. Sweaters \$1.95. Sizes 34 to 40.  
—Misses' sweaters \$1.50; 24 to 34 sizes only.

## Shoes For School

—Misses' gun metal hi cut and patent cut hi cut school shoes, snappy last, \$2.50.  
—Misses' tan blucher calf school shoes; new toe effects, \$1.98.  
—Misses' tan Russia and gun metal button school shoes; all solid, \$2.00 to \$2.50.  
—Misses' box calf blucher school shoes; 8 1-2 to 11, at \$1.25; 11 1-2 to 12, at \$1.50.  
—Boys' and youths' seamless calf school shoes; a good durable shoe; all solid; 13 to 2, at \$1.75; 2 1-2 to 7, at \$2.00.  
—Boys' gun metal button freak toe, snappy last, \$2.50.  
—Boys' satin calf blucher school shoe; sizes 7 to 9, at \$1.25.

## Thursday's Grocery Specials

—Fancy Cured Lemons, 15c dozen.  
—Full Cream Eastern Cheese, 20c per lb.  
—25c bbls. American Beauty Ginger Snaps, 20c bbl.  
—15c jars French's Salad Mustard, 10c jar.

## Middy Blouses 98c

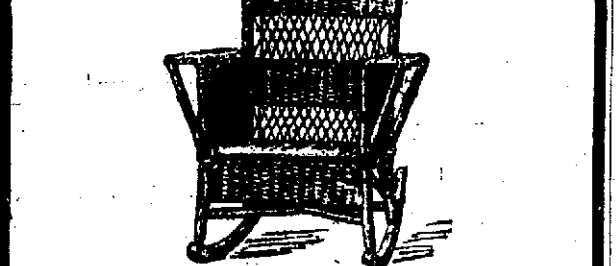

—Particularly interesting news for school girls is the announcement that more of those fine white Galatea Middy Blouses with blue flannel collars, for 98c, that most sisters haven't under \$1.50. Kutner's sell them at 98c.

## Get Prescriptions Made of Pure Fresh Drugs

When you get medicine you get it to cure you of some ailment. If you do not get the best, you delay the cure. Quick recovery depends on the purity of the remedy. We give particular attention to the compounding of prescriptions. Our druggists are highly efficient and experienced and exercise every precaution to get everything exactly right. All the drugs used are fresh and pure. That is why the medicines we put out are best.
